Quality Assurance/Part 70 Permit Pollutants

In our continuing effort to improve the quality of the emissions statements we are providing the following table. We request that you fill in the totals for each of the pollutants that your source emits. If your source doesn't emit a particular pollutant, DO NOT FILL IN THE BLANK. We will use this information as a tool in our review of your emissions statement, and for Part 70 Permit (Title V) billing data.

You will notice that the following table has more than the six pollutants required by the emissions statement rule. The additional pollutants are requested to accurately assess Part 70 Permit fees. IF YOU DO NOT HAVE A PART 70 PERMIT, YOU ARE REQUESTED TO FILL IN ONLY THE EMISSIONS STATEMENT POLLUTANTS YOUR SOURCE EMITS.
