Richmond, Indiana 47374

Attention: Mr. E. A. Stassin

Dear Mr. Stassin:

Re: Disposal of Liquid "Plastisol"
Waste at the Western Wayne Landfill, 89 - 1
Wayne County

You are hereby notified that approval is granted for the disposal of liquid "plastisol" waste from your company at the Western Wayne Landfill, 89 - 1, Wayne County.

It is understood this material is used in gasketing material in bottle closures, and averages fifteen 55-gallon barrels every quarter for disposal. These barrels may be deposited with the general refuse, and the entire area compacted and covered daily with at least six inches of soil. A chemical breakdown of the "plastisol" is on file with the Solid Waste Management Section. Local approval must be obtained from the Wayne County Health Department prior to disposal.

Thank you for your assistance. If we may be of further assistance, please do not hesitate to contact Mr. John Baker of the Solid Waste Management Section at AC 317/633-6400.

Very truly yours,

Roland P. Dove, Director
Division of Sanitary Engineering
