This notification was provided by the Grant County Emergency Management Agency indicating that a release of fuel had taken place at that location where fuel was still present. IDEM OSC Cage determined that the accident occurred on Jan 13, 2024. The responsibility for reporting, containing, and conducting a spill response is outlined in 327 Indiana Administrative Code (IAC) 2-6.1-7(3).

327 IAC 2-6.1-7(2), requires activities to be performed, or direct others to perform activities, to accomplish a spill response. Diesel fuel (Free Product) was observed during the Feb 29<sup>th</sup> site visit (16 days after the incident) The spill response was not adequately performed.

327 IAC 2-6.1-7(3), requires a spill report be communicated to the IDEM's 24-Hour Emergency Spill Line within 2 hours of discovery. The spill occurred on 1/13/24 and notification was not received until 1/24/24, which is not within the 2 hour reporting requirement.
