Scott,

EMC has obtained approval to complete the riser installation tomorrow (Friday July 12, 2024). The Warrick Co Landfill # 2 will not need an extension to complete the work.

I will send out a brief update email on Monday documenting the completed work.

Sincerely,

Matt Feller, LPG, PG, Regional Director

Scott,

EMC is requesting a 30-day extension to install the additional riser vents as described in the IDEM Letter Methane Mitigation Plan dated June 13, 2024. EMC will continue to conduct the weekly methane monitoring as requested by the IDEM. EMC will let the IDEM know when the riser vent installation is scheduled to be completed. Please let me know if you have any questions.

Sincerely,

Matt Feller, LPG, PG, Regional Director
