Permit Term/ Condition	Description of Permit Condition	*Method Codes	Report Date/Comments
C.17 (a)	Quarterly Deviation and Compliance Report	RK	On November 30, 2023, IDEM conducted an inspection and noted that at the time of the visit the Q3 2023 Quarterly Deviation and Compliance Report and the Q3 2023 Quarterly HAP Emissions Summary Report had not been submitted to the IDEM & EPA by the October 30, 2023 deadline. Per the December 6, inspection summary, Red Spot failed to track the facility's monthly toluene emissions (Condition D.1.5(3)). Red Spot tracks HAP emissions electronically. Due to recent employee turnover, at the time of the inspection, Timothy Tanner did not have access to the emissions system to demonstrate compliance. Red Spot received a warning for the violations. The signed reports indicating the permit conditions were submitted electronically to both agencies on December 5, 2023.
