**SUB: Ball Metal Beverage Container Corp. - NSPS Report – First Half of 2024  
T181-43283-00022**

Per limits specified in 40 CFR 60.492 Subpart WW and the facility permit T-181-43283-00022, I hereby certify that the affected facility of Ball Metal Beverage Container Corp., Monticello, Indiana has met full compliance. Compliance was maintained by using compliant coatings or daily averaging of VOC content or the use of a VOC control device or daily averaging of VOC content and the use of a VOC control device. The total volume-weighted average of the total mass of VOC per volume of coating solids were equal or less than the limits when daily averaging or daily averaging and VOC control device was used.

We have also fulfilled all applicable record keeping and reporting requirements during the past six months. All calculations are available on file at the facility. The coatings used are equal or less than the coatings submitted with the permit renewal. Specific coating information is available on file at the facility.

The required Certification Form per the facility permit is attached with this submittal.

If you have any questions, please feel free to contact Matt Saul at 574-583-1827.

Sincerely,

A handwritten signature in black ink, appearing to read "Jeremy Bradley".
