Dear Rob Downey,

I am the permit writer assigned to the current application No. 129-47703-00074 for Nix Industrial. I would like to extend to you my contact information so that we may have continued communication until your new permit is issued. Please keep this information at hand. It is common for questions to arise, and oftentimes, further clarification is needed during the permit review process.

To expedite the review process, please e-mail me the electronic copy of your calculations (preferably in excel format) and other supporting documents used as part of your application.

Based on my preliminary review of the application, please clarify what changes are being made to the source. I noticed that the source is changing its address and name, will it be maintaining its current permit (129-43289-00062), or should the permit be processed as a new source?

IDEM, OAQ will notify you when a draft permit has been submitted for public notice and/or when a final permit has been issued. As part of the notification, IDEM, OAQ will provide information on how to access the draft and/or final permit electronically on IDEM's website. If Nix Industrial would prefer to receive paper copies of the entire draft and/or final permit, please let me know prior to the end of the applicant review period. If you prefer to receive paper copies of the entire permit, IDEM, OAQ will mail a paper copy of the draft permit and/or original signed final permit to the source contact. If you do not request to receive paper copies of the entire permit, IDEM, OAQ will only mail a paper copy of the original signed final permit signature page to the source contact.

Please feel free to contact me at any time if you have questions, concerns, or important information regarding your permit. For your convenience, my section chief (Iryn Calilung) may be contacted at 317-233-5692 or [ICALILUN@idem.in.gov](mailto:ICALILUN@idem.in.gov).

Thank you in advance for your time and assistance. I look forward to working with you.

Sincerely,

Phillip Jackson  
Environmental Manager E2

Thank you for the clarification, I am almost done with the draft permit. I was reviewing some information from the administration section, and since Nix Industrial is considered a new source, they are required to submit GSD-14 and GSD-15 forms. I have included them in this email. If you can fill them out and return them to me, I would greatly appreciate it.

Thank you,

Phillip Jackson  
Environmental Manager E2

Phillip:

Per the source, the waste oil combustion units, fuel storage tanks, and degreaser have all been removed from the building on Fletchall Avenue, and they were not moved to the Frontage Road building. The Frontage Road building has a total of 14 MIG welders and one (1) TIG welder. There is also one (1) oxy/acetylene torch. Some of the MIG welders are presumably new units; the TIG welder was moved from the Fletchall Avenue building as was the oxyacetylene torch. The three (3) arc welders were not moved to the Frontage Road building, and they are no longer at the Fletchall Avenue building.

Good afternoon,

I was reviewing the Nix permit and noticed that in the previous sites permit, they had waste oil combustion units, fuel storage tanks, and a degreasing unit, all of which are not included in the listed units of the new application. Are these units going to be moved as well, or are they going to be left at the previous location?

Additionally, can you provide more information regarding the welding and flame cutting units? I noticed that in the previous permit, they only had 6 MIG welders, 1 TIG welder, 3 Arc Welders, and one oxyacetylene unit; however, in this permit, they only have 13 MIG welding units listed. Are the other welding units going to be moved as well?

Thank you,

Phillip Jackson

Good morning, thank you for the additional information. I am still awaiting the calculations for the new emission units at the Frontage Road location. I spoke with my section chief yesterday, and she confirmed that Nix Industrial will be receiving a new MSOP permit since they will have no connections to the previous location. The only way they would be able to keep the current MSOP they had is if there was a source determination that meets the three requirements to be considered the same source. Since the old facility would not be providing any materials or products to the new location, they would not qualify for a source determination, thus the new facility will need a new permit. Hopefully, this explanation adds some clarification.

Thank you,

Phillip Jackson

Phillip:

Nix Industrial (formerly Nix Metals) has moved, or will be moving, all of the previously permitted emission units which were included in the air permit that had the Fletchall Avenue address to the new address for their facility that is located on Frontage Road. The two (2) locations are separated by a farm field so the move is literally less than a 1/4-mile as the crow flies. Where I described emission units as Existing in the cover letter I provided is an indication that the emission unit is being moved from the Fletchall Avenue location to the Frontage Road location. Where I described an emission unit as New in the cover letter is an indication that this emission unit is being installed at the Frontage Road but was not previously in place at the Fletchall Avenue location. The only emission units that will remain at the Fletchall Avenue location are portable heating units as the company intends to lease this space out. If you will be issuing a new permit for the Frontage Road location then I would assume you will be deactivating the permit number for the Fletchall Avenue location. The move from the Fletchall Avenue location to the Frontage Road location is scheduled to be complete by 6-10-24.

Also, the potential to emit calculations for the existing emission units that are now at the Frontage Road location would be the same as was described in the permit for the Fletchall Avenue location. I will send you the potential to emit for the new emission units at the Frontage Road location in a separate email. I hope this helps you better understand the application.

Regards,

Rob

**OAQ GENERAL SOURCE DATA APPLICATION****GSD-15: Government Officials Notified**

State Form 51608 (R3 / 1-10)

**INDIANA DEPARTMENT OF ENVIRONMENTAL MANAGEMENT**

IDEM – Office of Air Quality – Permits Branch  
100 N. Senate Avenue, MC 61-53 Room 1003  
Indianapolis, IN 46204-2251  
Telephone: (317) 233-0178 or  
Toll Free: 1-800-451-6027 x30178 (within Indiana)  
Facsimile Number: (317) 232-6749  
[www.IN.gov/idem](http://www.IN.gov/idem)

**NOTES:**

- The purpose of GSD-15 is to identify local government officials that are to be notified that an air permit application has been submitted.
- Detailed instructions for this form are available on the Air Permit Application Forms website.
- All information submitted to IDEM will be made available to the public unless it is submitted under a claim of confidentiality. Claims of confidentiality must be made at the time the information is submitted to IDEM, and must follow the requirements set out in 326 IAC 17.1-4-1. Failure to follow these requirements exactly will result in your information becoming a public record, available for public inspection.

**Government Officials Notified**

Use this table to identify local government officials that should be notified pursuant to Indiana Code (IC) 13-15-3-1 that an air permit application has been submitted. If you need additional space, you may make copies of this form.

Thank you for the reply. I will discuss this with my section chief and see what she thinks is required in the permit.

Thank you,

Phillip Jackson  
Environmental Manager E2

Phillip:

The source indicates that refinishing comprises less than 1% of what is done in the paint booth.

Regards,

Rob

Do they no longer perform auto refinishing in the paint booths? This would change several parts of the permit and conditions. Please let me know as soon as possible.

Thank you,

Phillip

Phillip:

With respect to the questions you had regarding the Nix Metals painting operation they paint metal parts and the parts are dried inside the booth.

Regards,

Rob

Dear Mr. Downey:

Attached is the draft MSOP Initial and supporting documents for review. As a courtesy, this draft is being provided to you for an opportunity to review and provide comments prior to posting the public notice on IDEM's website. This supplemental step of providing you the draft permit does not take away your legal right to provide comments during the thirty (30) day comment period.

The time clock for MSOP Initial No.: 129-47703-00074 will be stopped during your review until you either provide comments or indicate that you do not have any comments. Due to permit accountability and IDEM's intention to public notice the permit in a timely manner, you are being allotted two (2) weeks from today to provide comments in writing, email is sufficient. If you have any conflicts or special circumstances that would impede your review process during the time allotted, please notify me directly at the email address or phone number listed below as soon as possible. If you have not responded on or before July 22, 2024, IDEM will assume that you have no comments pertaining to this draft and all files will be forwarded for public notice.

During this review period, I will be available to address your concerns, answer any questions that you may have, or make necessary revisions to this draft.

Please send a reply email to me immediately confirming that you have received this draft version of the permit for review and that you are able to access these files in their current format.

The following documents are not included in this review but will be included during the public notice period:

326 IAC 326 IAC 8-10 (Automobile Refinishing)

NESHAP 40 CFR Part 63, Subpart HHHHHH (Paint Stripping and Miscellaneous Surface Coating Operations at Area Sources)

Pursuant to 326 IAC 2-1.1-7, the fee for this permitting action is expected to be \$4,000, which is based on the following:

|         |                         |
|---------|-------------------------|
| \$3,500 | MSOP NSC                |
| \$500   | NESHAP (Subpart HHHHHH) |

Please note: This is not a bill. This represents the anticipated fee and is subject to change if additional review is required or the permit level changes for some reason (e.g. an additional NESHAP review is required). You will receive a final bill from the OAQ Permits Administration and Support Section.

Sincerely,

Phillip Jackson  
Environmental Manager E2
