

**IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER
REVISED TOTAL COLIFORM RULE
Monitoring and Reporting Requirements Not Met for:
The River (pilchers Complex)**

Our water system recently violated a drinking water standard. Although this is not an emergency, as our customers, you have a right to know what happened, what you should do, and what we are doing to correct this situation.

We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water standards meet EPA's health standards. During the 2nd Quarter of 2024 we **did not test for Total Coliform** and therefore cannot be sure of the quality of our drinking water at that time.

What should I do? There is nothing you need to do at this time. You do not need to boil your water or take other corrective actions. You may continue to drink the water.

What does this mean? This is not an immediate risk. If it had been, you would have been notified immediately.

What Happened? What is being done? WE ARE REQUIRED TO TEST OUR DRINKING WATER ON A QUARTERLY BASIS. WE FAILED TO TAKE DRINKING WATER SAMPLES TO TEST FOR TOTAL COLIFORM DURING THE TIME SPECIFIED. IF WE MISS TWO (2) QUARTERS IN A ROLLING 12 MONTH PERIOD, WE WILL BE REQUIRED TO TEST OUR WATER MONTHLY.

We anticipate resolving the problem by the end of the next quarter.
