Todd,

Good afternoon, we are currently working on issuing the voidance of the Fall Creek Regional Waste District Marketing and Distribution permit IN LA 000678. We understand that you are no longer marketing and distributing materials, however, since we have not yet finished processing your voidance request, we still need the land application reports for

May, June, and July of 2024. Please note, if no biosolids were marketed and distributed during these months, your reports can be emails stating that no biosolids were marketed or distributed during the month. Please provide the reports for May, June, and July 2024 as soon as possible. We would prefer separate emails for these reports if possible. Feel free to contact me if you have any questions.

Thank you,  
Nick Meulen
