Dear Mark W. Stanifer

Re: Compliance Plan Revision Request and Update,
Agreed Order Case No. 2002-11313-W

The City of Rockport requests that new completion dates for all NPDES limits and monitoring requirements be granted, due to delays in obtaining necessary quotes, as follows:

- a) by Dec. 15, 2003 complete the clarifier renovations at the wastewater treatment plant (south plant), at 210 Center St. . Progress is underway at present time.
- b) By Dec. 5, 2003 complete the sewer separation of the establishments on Main St. . Contractors have been contacted and work will begin by Nov. 5, 2003.
- c) by Feb. 1, 2004 complete the grit removal system repairs at the main lift station, and install an effluent meter at the (south plant) 210 Center St. . Invitations for quotes are being sought.

Sincerely

Randall K. Allen
