**RE: Alcan Aluminum Corporation/Novelis Corporation
Voluntary Remediation Program #6940403**

Dear Corey;

As discussed in our meeting on June 26, 2007, I am writing to advise that Alcan Aluminum Corporation changed its name to Novelis Corporation, following a spin-off from its former parent company Alcan Inc. effective January 5, 2005. The change to Novelis Corporation was virtually transparent in all material respects as there were no changes in the facility, management or operations. Novelis has and will continue to be responsible for all remediation activity in reference to VRP #6940403.

Attached for your records is a letter of notification that was sent to Chris Bauer on October 29, 2004 notifying IDEM of the name change. Also attached you will find Chris's response requesting an amended page 1 and page 16 of the VRP application. The amended pages of the VRP application are not on record as having been submitted. Enclosed you will find an updated page 1 and page 16 to confirm the name change. We request this name change in order to ensure the Certificate of Completion and the Covenant Not to Sue contain the proper name of Novelis Corporation.

If you should have any questions I can be reached at 812-462-2278 or by email at danny.carroll@novelis.com.

Sincerely,

Danny Carroll
LGBU Environmental Leader

Attachment Information:

This application will not be considered complete, and may be rejected, unless the following Attachments are included:

Attachment A: Please attach a *detailed* site map illustrating identified area(s) targeted for VRP efforts. For an explanation of a detailed site map, please see Attachment A instructions.

Attachment B: Provide a clean copy (without company headers, footers, or watermarks) of the legal description of the entire facility. If a portion of the facility is slated for remediation, then the area must be identified on an appropriate site map(s) and that area's legal description will have to be provided in either written or digital format (please include the facility street address, township, range, section, direction lines, distances, etc...). A professional survey or GPS collected UTM coordinates of the area can also be provided as supplemental information, or if currently not available, program participants must supply it in the Completion Report at the end of the project. This information will be reflected in the Certificate of Completion and Covenant Not to Sue.

Attachment C: Please check Application Form Instructions and provide the pertinent Facility Universal Transverse Mercator (UTM) coordinates information and include as Attachment C.

Attachment D: Additional pages from Section 3 (if applicable).

Mr. Chris Bauer
Indiana Department of Environmental Protection
Voluntary Remediation Division
100 North Senate Avenue
Indianapolis, IN 46206-6015

Dear Mr. Bauer:

Re: Notice of Proposed Environmental Permit Transfer
Alcan Aluminum Corporation
Site No. 6940403

As environmental coordinator for Alcan Aluminum Corporation's Terre Haute, Indiana, facility, I am writing to provide you with notice of a proposed environmental permit transfer. Alcan Aluminum Corporation ("Alcan"), the permit holder, is in the process of being spun-off to a new corporate entity to be called "Novelis". It is anticipated that the spin-off to Novelis will be effective January 1, 2005. No changes in the mode of operations or emissions will take place as a result of the spin-off, and Alcan (or Novelis) will continue to operate as the permit holder, without making material and substantial alterations or additions to the facility.

Although the change will be virtually transparent in all material respects, we are nonetheless providing this notice to you for your records, as may be required by the applicable regulations. Where applicable, this letter will also serve as a request for an administrative permit amendment, minor permit modification, or other form of permit revision, as the case may be, in order to modify the above-referenced permit to reflect the new ownership entity.

If required, the necessary notification form, registration, and/or application for permit amendment or modification is attached hereto. In addition, this letter acknowledges that Alcan Aluminum Corporation, which will be renamed Novelis, will continue to be responsible for all permit-related obligations and responsibilities.

If you have any questions or concerns, or if you require any further information, please contact me at (812) 462-2143. Thank you for your attention to this matter.

Very truly yours,

A handwritten signature in cursive script that reads "Max I. Strassler".

To <bonebeJH@obg.com>
cc <Max.Strassler@Alcan.com>
bcc
Subject Novelis

John/Max:

I received the notice that Alcan is now under a new "corporate entity", Novelis. The letter makes reference to permit modifications that may be needed to change the owner name. I am not aware of any IDEM permits for the site seeing as there isn't any active remediation going on.

Also, if Novelis wishes the Certificate of Completion/Covenant Not to Sue (when we reach that stage) to be listed as the "applicant" or owner, then a new front page of the VRP application and original signatures (pg. 16 of the VRP application- see attached) need to be submitted.

Thanks.

Chris Bauer
