Subject: Request for Updated Inventory Information

The Drinking Water Branch is again requesting your input on any inventory changes at your facility.

It is important that we have your system's most current inventory information to assist us in our ongoing efforts to ensure that your drinking water is safe. Please review the information we have on file for you (listed on the back of this page) and mark down any changes. If all the information is accurate, please circle "No Changes" at the top. Then mail, email dwbmgr@idem.in.gov, or fax the information back to us at 317/234-7436 as soon as possible.

A pre-addressed stamped return envelope has also been enclosed for your convenience. Please return the forms by **September 30, 2024**.

Please note that the population information will also be used to accurately establish your system's annual drinking water fees. **If we do not receive any updates from you, we will assume the information is valid for determining the drinking water fees.** If you have questions about the annual fee, please contact Ms. Carol Guidry at 317/232-8472.

Thank you for your assistance and cooperation with this matter. If you have any questions regarding your inventory information please contact Mr. David Hayden at 317/234-3171.

****Please note: The Drinking Water Branch is using an automated notification system. This system is mainly used to provide sampling reminders. It may also be used for polling and to deliver important information. Please take the time to listen to these messages as they are very important. These messages are sent to the person listed as the SA (Sampling Reminder Contact). Messages can be sent by email, or phone.**

The following page contains the information that the Drinking Water Branch currently has on file for your system. Additional information, including your reported sample results can be viewed at any time on our new Drinking Water Viewer website, <https://indwv.gecsws.com/>.
