---

Hi David,

Please send in an updated GSD-01 form. You can put on a cover letter that it is just updated RO information, and should be included as additional information for SSM 141-48867-00642/SPM 141-48888-00642. Our administrative staff will receive it and then update our information.

Since the Air Permit Application Cover Sheet is signed by the RO, we will also require an updated cover sheet. This means it will need to be mailed in, in order for us to have a wet signature.

Thank you,

Alexandrea Neuzerling

Hello Alex,

We received some mail addressed to our previous RO, who has since been replaced with a new point of contact as RO.

For future communications on the SBN100 permit, is there a route we can follow to update RO contacts while this permit modification is still in process?

We are looking to update RO contact details to reflect below:

RO Name: Robb Truedinger  
Company: Amazon Data Services, Inc.  
Address: 13820 Sunrise Valley Drive, Herndon, VA 20171  
Phone: c/o David Monaghan – 6143127306  
Email: c/o David Monaghan – [dmonagh@amazon.com](mailto:dmonagh@amazon.com)

Thanks,  
David

David,

Just wanted to let you know that the public notice begins today and ends August 15:

[https://www.in.gov/idem/public-notices/public-notices-northern-indiana/#st\\_joseph](https://www.in.gov/idem/public-notices/public-notices-northern-indiana/#st_joseph)

If there are no comments or delays, the soonest I can submit the SSM to be issued will be the morning of August 20. I will also submit the SPM to be sent to the 15-day EPA review at that time, which means the earliest the 15-day review period would end is likely September 5. I can then submit the SPM to be issued first thing on September 8. Again, this is presuming no comments or delays, so this is just a rough estimate of the timeline we are looking at.

Thank you,

Alexandrea Neuzerling

It is not yet on Public Notice. I submitted it, but it first has to be approved and then go through our administrative section to go to Public Notice. I will let you know when Public Notice begins/ends.

Thank you,

Alexandrea Neuzerling

Hi Alex – just confirming, the public notice period is now running (7/7 through to 8/7)? Follow that period, if not comments are received, there will be a 15 day EPA review period?

Thanks,  
David

Just to follow up because I realized how that sounded: Iryn has just been out of the office for the last two weeks. She should be back next week

Hello,

I was finally able to finish updates on the permit documents. With Iryn being gone and some EPA rule changes (you can see updates that were made at the end of the TSD), it just took me a minute to get everything sorted. I plan to submit the SSM/SPM for Public Notice first thing on Monday morning as long as you have no objections. I know it is a holiday weekend, but if there are any additional comments you can always submit them to me during the PN period.

Thank you,

Alexandrea Neuzerling

Hi Alex,

We updated the maximum hp values of other gen types in the calculation spreadsheet (house gens and other support gens). The equipment specifications of those generators showing the maximum hp values were provided in the initial permit application. For the unit descriptions in Sections A.2 and A.3, can we show both the maximum hp and the kW for each gen type? For example:

“Two hundred and thirty-eight (238) diesel-fired critical emergency generators, identified as CEG1 through CEG238, approved in 2025 for construction, manufactured in 2024 each with a maximum output horsepower rating of 4,061 hp (capacity 2,750 kW), each using an

emissions control system to control particulate, NOx, VOC, and CO, identified as CE1 through CE238, and exhausting through stacks S1 through S238.”

Please update the unit descriptions in Sections D.1, E.1, and E.2 as well.

Thank you again for your help. If you have any questions, please let us know.

Thanks,  
Tingting

Tingting,

I updated the hp to 4,061. We also decided to just remove the MMBtu/hr and kw from the description and only use the 4,061 hp, since this is what is being used for the calculation. Take a look at the updated documents, and let me know if I missed anything or if you have any additional comments or questions by the end of the day Friday, June 6.

Thank you,

Alexandrea Neuzerling

Hi Alex,

Thank you again for your support on this permit project. We reviewed the draft permit documents provided in your email and put our comments in the attached file for your review. Please let us know if you have any questions or need additional information.

Thanks,  
Tingting

**Subject:** Applicant Review for SSM No. 141-48867-00642 and SPM No. 141-48888-00642 for Amazon Data Services, Inc.  
**Importance:** High

Dear David Monaghan and Tingting Wang:

Attached please find the draft Significant Source Modification and Significant Permit Modification and supporting documents for review. I have only enclosed the source modification drafts since the permit modification documents are identical to the source modification documents except for the cover letter. As a courtesy, this draft is being provided to you for an opportunity to review and provide comments prior to posting the public notice on IDEM's website. This supplemental step of providing you the draft permit does not take away your legal right to provide comments during the 30-day comment period.

The time clock for Significant Source Modification No. 141-48867-00642 and Significant Permit Modification No. 141-48888-00647 will be stopped during your review until you either provide comments or indicate that you do not have any comments. Due to permit accountability and IDEM's intention to public notice the permits in a timely manner, you are being allotted two (2) weeks to provide comments in writing. If you have any conflicts or special circumstances that would impede your review process during the time allotted, please notify me directly at the email address or phone number listed below as soon as possible. If you have not responded on or before June 3, 2025, IDEM will assume that you have no comments pertaining to this draft and all files will be forwarded for public notice.

During this review period, I will be available to address your concerns, answer any questions that you may have, or make necessary revisions to this draft.

The following documents are not including in this review but will be included during the public notice period:

Public Notice Letter

Pursuant to 326 IAC 2-1.1-7, the fee for this permitting action is expected to be \$7,142, which is based on the following:

\$5,556	TV Significant Source Modification (Minor for PSD)
\$793	Each NSPS Review: \$793 (Subpart III)

\$793

Each NESHAP Review: \$793 (Subpart ZZZZ)

Please note: This is not a bill. This represents the anticipated fee and is subject to change if additional review is required or the permit level changes for some reason (e.g. an additional NESHAP review is required). You will receive a final bill from the OAQ Permits Administration and Support Section.

Sincerely,

Indiana Department of  
Environmental Management
