Dear Mr. Orta:

Re: Adoption of Agreed Order
Commissioner, Indiana Department of Environmental Management
v.
Custom Superior Paint Incorporated
Case No.: 2025-30630-H
EPA ID: INR000157941
Elkhart, Elkhart County

The Agreed Order pertaining to the case referenced above has been approved for adoption by the Indiana Department of Environmental Management. A copy of the finalized agreement is enclosed for your records.

Please note the terms of compliance contained in the Agreed Order. The time frames for compliance are effective upon receipt of this letter. The civil penalty check has been received and is being processed. Thank you for your cooperation in resolving this matter. If you have any questions, please contact Linda McClure at (317) 233-5954 or via email at lmccclure@idem.IN.gov.

Sincerely,

Jennifer Reno, Chief
Land Enforcement Section
Compliance Branch
Office of Land Quality

AGREED ORDER

Complainant and Respondent desire to settle and compromise this action without hearing or adjudication of any issue of fact or law, and consent to the entry of the following Findings of Fact and Order. Pursuant to Indiana Code (“IC”) 13-30-3-3, entry into the terms of this Agreed Order does not constitute an admission of any violation contained herein. Respondent’s entry into this Agreed Order shall not constitute a waiver of any defense, legal or equitable, which Respondent may have in any future administrative or judicial proceeding, except a proceeding to enforce this order.

I. FINDINGS OF FACT

1. Complainant is the Commissioner (“Complainant”) of the Indiana Department of Environmental Management (“IDEM”), a department of the State of Indiana created by IC 13-13-1-1.
2. Respondent is Custom Superior Paint Incorporated (“Respondent”), which owns/operates the facility with United States Environmental Protection Agency (“EPA”) ID No. INR000157941, located at 1700 West Lusher Avenue, in Elkhart, Elkhart County, Indiana (“Site”).
3. IDEM has jurisdiction over the parties and the subject matter of this action.
4. Pursuant to IC 13-30-3-3, IDEM issued a Notice of Violation (“NOV”) on April 16, 2025, via certified mail to:

5. Respondent notified EPA of Very Small Quantity Generator activities on June 19, 2025
6. 329 Indiana Administrative Code ("IAC") 3.1 incorporates federal hazardous waste management requirements found in 40 Code of Federal Regulations ("CFR") Parts 260 through 270 and Part 273, including those identified below.
7. During an investigation, including an inspection on October 8, 2024, conducted by a representative of IDEM, the following violations were found:
 - a. Pursuant to 40 CFR 262.11(a), a person who generates a solid waste must determine if that waste is a hazardous waste at the point of waste generation, before any dilution, mixing, or other alteration of the waste occurs, and at any time in the course of its management that it has, or may have, changed its properties as a result of exposure to the environment or other factors that may change the properties of the waste such that the RCRA classification of the waste may change.

As noted during the inspection, Respondent did not make a hazardous waste determination on four (4) wastestreams, which were solid waste, generated at the Site. Specifically, ignitable paint and solvents; still bottoms; paint filters; and old paint.

On December 18, 2024, Respondent submitted the required waste determination documentation.

- b. Pursuant to 329 IAC 3.1-1-10, every hazardous waste generator, transporter, or owner or operator of a hazardous waste facility shall notify the commissioner of its hazardous waste activity on the approved forms.

Pursuant to 40 CFR 262.13, a generator must determine its generator category. A generator's category is based on the amount of hazardous waste generated each month and may change from month to month.

As noted during the inspection, Respondent failed to notify the Commissioner of hazardous waste generator activities.

On December 3, 2024, Respondent submitted a Handler ID Form notifying the Commissioner of small quantity generator activities.

- c. Pursuant to 40 CFR 262.15(a)(4), a satellite accumulation container holding hazardous waste must be closed at all times during accumulation, except when adding, removing or consolidating waste.

As noted during the inspection, Respondent accumulated hazardous waste in a satellite accumulation container that was not closed.

- d. Pursuant to 40 CFR 262.15(a)(5)(i), a generator must mark or label its satellite hazardous waste containers with the words "Hazardous Waste."

As noted during the inspection, Respondent accumulated hazardous waste in containers at or near the point of generation without a permit and did not properly mark satellite accumulation containers with the words "Hazardous Waste."

- e. Pursuant to 40 CFR 262.16(b)(2)(iii)(A), a container holding hazardous waste must always be closed during storage, except when it is necessary to add or remove waste.

As noted during the inspection, Respondent did not store six (6) containers of hazardous waste closed.

- f. Pursuant to 40 CFR 262.16(b)(2)(iv), at least weekly, the small quantity generator must inspect central accumulation areas. The small quantity generator must look for leaking containers and for deterioration of containers caused by corrosion or other factors.

As noted during the inspection, Respondent failed to conduct weekly inspections of the central accumulation area.

- g. Pursuant to 40 CFR 262.16(b)(6)(i)(A), a small quantity generator may accumulate hazardous waste on-site for 180 days or less without a permit, provided that, while being accumulated on-site, each container is labeled or marked clearly with the words "Hazardous Waste."

As noted during the inspection, Respondent accumulated hazardous waste on-site, without a permit, and failed to mark hazardous waste containers with the words "Hazardous Waste."

- h. Pursuant to 40 CFR 262.16(b)(6)(i)(B), a small quantity generator may accumulate hazardous waste on-site for 180 days or less without a permit, provided that, while being accumulated on-site, each container is labeled or marked with an indication of the hazards of the contents.

As noted during the inspection, Respondent accumulated hazardous waste on-site, without a permit, and failed to clearly mark hazardous waste containers with an indication of the contents.

- i. Pursuant to 40 CFR 262.16(b)(6)(i)(C), a small quantity generator may accumulate hazardous waste on-site for 180 days or less without a permit, provided that the date when the accumulation begins is clearly marked and visible for inspection on each container.

As noted during the inspection, Respondent accumulated hazardous waste on-site, without a permit, and failed to clearly mark hazardous waste containers with accumulation start dates.

- j. Pursuant to 40 CFR 262.16(b)(8)(vi), the small quantity generator must attempt to make arrangements with the local police department, fire department, other emergency response teams, emergency response contractors, equipment suppliers and local hospitals, taking into account the types and quantities of hazardous wastes handled at the facility. Arrangements may be made with the Local Emergency Planning Committee, if it is determined to be the appropriate organization with which to make arrangements.

As noted during the inspection, Respondent did not attempt to make these arrangements.

- k. Pursuant to 40 CFR 262.16(b)(9)(ii), the small quantity generator must post the following information next to the telephone: (1) the name and phone number of the emergency coordinator; (2) location of fire extinguishers and spill control material and, if present, fire alarm; (3) the telephone number of the fire department, unless the facility has a direct alarm.

As noted during the inspection, Respondent failed to post the required information next to the telephone.

- l. Pursuant to 40 CFR 262.16(b)(9)(iii), the small quantity generator must ensure that all employees are thoroughly familiar with proper waste handling and emergency procedures, relevant to their responsibilities during normal facility operations and emergencies.

As noted during the inspection, Respondent failed to ensure employees were thoroughly familiar with proper waste handling and emergency procedures, relevant to their responsibilities during normal facility operations and emergencies

- m. Pursuant to 40 CFR 261.4(a)(26)(i), solvent-contaminated wipes that are sent for cleaning and reuse are not solid wastes from the point of generation, provided that (i) The solvent-contaminated wipes, when accumulated, stored, and transported, are contained in non-leaking, closed containers that are labeled "Excluded

Solvent-Contaminated Wipes.” The containers must be able to contain free liquids, should free liquids occur. During accumulation, a container is considered closed when there is complete contact between the fitted lid and the rim, except when it is necessary to add or remove solvent-contaminated wipes. When the container is full, or when the solvent-contaminated wipes are no longer being accumulated, or when the container is being transported, the container must be sealed with all lids properly and securely affixed to the container and all openings tightly bound or closed sufficiently to prevent leaks and emissions.

As noted during the inspection, Respondent failed to have the spent solvent contaminated wipes accumulated and stored in a non-leaking, closed container and failed to store the cardboard box closed. At the time of the inspection, solvent spent wipes were stored in an open cardboard box.

On or before June 11, 2025, Respondent implemented a new process in which solvent is no longer used to remove silicone caulk from RVs, thereby eliminating spent solvent contaminated wipes as a wastestream.

- n. Pursuant to 40 CFR 261.4(a)(26)(i), solvent-contaminated wipes that are sent for cleaning and reuse are not solid wastes from the point of generation, provided that (i) The solvent-contaminated wipes, when accumulated, stored, and transported, are contained in non-leaking, closed containers that are labeled “Excluded Solvent-Contaminated Wipes.” The containers must be able to contain free liquids, should free liquids occur. During accumulation, a container is considered closed when there is complete contact between the fitted lid and the rim, except when it is necessary to add or remove solvent-contaminated wipes. When the container is full, or when the solvent-contaminated wipes are no longer being accumulated, or when the container is being transported, the container must be sealed with all lids properly and securely affixed to the container and all openings tightly bound or closed sufficiently to prevent leaks and emissions.

Pursuant to 329 IAC 3.1-6-2(13), at 40 CFR 261.4(a)(26)(i) * and 40 CFR 261.4(b)(18)(i) *, delete the phrase "Excluded Solvent-Contaminated Wipes" and substitute the phrase "Excluded Solvent-Contaminated Wipes' or other words indicating the contents of the container."

As noted during the inspection, Respondent failed to label the accumulation and storage container as required.

On or before June 11, 2025, Respondent implemented a new process in which solvent is no longer used to remove silicone caulk from RVs, thereby eliminating spent solvent contaminated wipes as a wastestream.

- o. Pursuant to 40 CFR 261.4(a)26(v)(A),(B), and (C), generators must maintain at their site the following documentation:(A) Name and address of the laundry or dry cleaner that is receiving the solvent-contaminated wipes;(B) Documentation that the 180-day accumulation time limit in 40 CFR 261.4(a)(26)(ii) is being

met;(C) Description of the process the generator is using to ensure the solvent-contaminated wipes contain no free liquids at the point of being laundered or dry cleaned on-site or at the point of being transported off-site for laundering or dry cleaning.

As noted during the inspection, Respondent failed to maintain the required records for solvent contaminated wipes.

On or before June 11, 2025, Respondent implemented a new process in which solvent is no longer used to remove silicone caulk from RVs, thereby eliminating spent solvent contaminated wipes as a wastestream.

- p. Pursuant to 40 CFR 262.10(a)(3), a generator shall not transport, offer its hazardous waste for transport, or otherwise cause its hazardous waste to be sent to a facility that is not a designated facility, as defined in § 260.10 of this chapter, or not otherwise authorized to receive the generator's hazardous waste.

As noted during the inspection, Respondent offered for transportation still bottoms, a hazardous waste, to a non-hazardous waste transporter and disposed of the still bottoms, a hazardous waste, at a non-permitted facility.

- q. Pursuant to 40 CFR 262.20, a generator who transports, or offers for transportation, hazardous waste for offsite treatment, storage, or disposal, must prepare a manifest. A generator must designate on the manifest one facility which is permitted to handle the waste described on the manifest. A generator may designate an alternate facility to handle his waste in the event that an emergency prevents delivery of the waste to the primary designated facility.

Pursuant to IC 13-30-2-1(12), a person may not do any of the following: (12) Cause or allow the transportation of a hazardous waste without a manifest if a manifest is required by law.

Pursuant to 329 IAC 3.1-1-13, the commissioner shall require the use of identification numbers issued by the United States Environmental Protection Agency (U.S. EPA).

As noted during the inspection, Respondent offered hazardous waste for transportation for offsite treatment, storage, or disposal without preparing a manifest.

- r. Pursuant to 40 CFR 262.16(b)(7), a small quantity generator must comply with all the applicable requirements under 40 CFR part 268.

As noted during the inspection, Respondent failed to comply with all the applicable requirements under 40 CFR part 268.

8. Orders of the Commissioner are subject to administrative review by the Office of Administrative Law Proceedings under IC 4-21.5; however, in recognition of the settlement reached, Respondent acknowledge notice of this right and waives any right to administrative and judicial review of this Agreed Order.

II. ORDER

1. This Agreed Order shall be effective ("Effective Date") when it is approved by Complainant or Complainant's delegate and has been received by Respondent. This Agreed Order shall have no force or effect until the Effective Date.
2. Respondent shall comply with the statute and rules listed in the findings of fact above.
3. Immediately upon the Effective Date, Respondent shall comply with 40 CFR 262.15(a)(4) and 40 CFR 262.16(b)(2)(iii)(A). Specifically, Respondent shall ensure containers are stored closed, except when adding, removing or consolidating waste.
4. Immediately upon the Effective Date, Respondent shall comply with 40 CFR 262.15(a)(5)(i), 40 CFR 262.16(b)(6)(i)(A), 40 CFR 262.16(b)(6)(i)(B), and 40 CFR 262.16(b)(6)(i)(C). Specifically, Respondent shall ensure containers are labelled/marked appropriately.
5. Respondent shall comply with 40 CFR 262.16(b)(2)(iv), when upon or on discovery of a change in generator status to a small quantity generator or a large quantity generator, Respondent shall ensure compliance with 40 CFR 262, to include conducting weekly inspections of the central accumulation area(s).
6. Within five (5) days of the Effective Date, Respondent shall notify the facility that received the still bottom waste for disposal that they have received a hazardous waste. This notification should include the approximate dates of disposal and the approximate amount sent for disposal. Documentation of sent notification shall be submitted to IDEM.
7. Respondent shall comply with 40 CFR 262.16(b)(8)(vi), when upon or on discovery of a change in generator status to a small quantity generator or a large quantity generator, Respondent shall ensure compliance with 40 CFR 262, to include making arrangements with local authorities.
8. Respondent shall comply with 40 CFR 262.16(b)(9)(ii), when upon or on discovery of a change in generator status to a small quantity generator or a large quantity generator, Respondent shall post the required emergency information next to the telephone. Respondent shall submit photographic documentation of the posting.
9. Respondent shall comply with 40 CFR 262.16(b)(9)(iii), when upon or on discovery of a change in generator status to a small quantity generator or a large quantity generator, Respondent shall ensure employees are thoroughly familiar with proper waste handling and emergency procedures, relevant to their responsibilities during normal facility

operations and emergencies. Documentation of completed training, including syllabus, shall be submitted.

10. Immediately upon the Effective Date, Respondent shall comply with 40 CFR 262.10(a)(3). Specifically, Respondent shall ensure all hazardous waste is transported by a hazardous waste transporter to a designated facility authorized to receive the generator's hazardous waste.
11. Respondent shall comply with 40 CFR 262.20, IC 13-30-2-1(12), and 329 IAC 3.1-1-13, when upon or on discovery of a change in generator status to a small quantity generator or a large quantity generator, Respondent shall ensure hazardous waste is shipped on a hazardous waste manifest.
12. Respondent shall comply with 40 CFR 262.16(b)(7), when upon or on discovery of a change in generator status to a small quantity generator or a large quantity generator, Respondent shall determine if a hazardous waste must be treated before it can be land disposed. This is done by determining if the hazardous waste meets the treatment standards in § 268.40, 268.45, or § 268.49.
13. All submittals required by this Agreed Order, unless IDEM notifies the Respondent otherwise in writing, shall be sent to:

Linda McClure, Enforcement Case Manager
Office of Land Quality
Indiana Department of Environmental Management
100 North Senate Avenue
Indianapolis, IN 46204-2251

14. Pursuant to IC 13-30-4-1, Respondent is assessed and agrees to pay a civil penalty of Nineteen Thousand Two Hundred Dollars (\$19,200). Said penalty amount shall be due and payable in twelve (12) monthly installments of One Thousand Six Hundred Dollars (\$1,600). Respondent shall pay the first installment by the due date printed on the Invoice, as attached. Respondent shall pay by the due date printed on subsequent invoices in accordance with the agreed upon payment plan.

Civil and stipulated penalties are payable to the "Indiana Department of Environmental Management" by:

Mail:

Civil penalties are payable by check to the "Indiana Department of Environmental Management." Checks shall include the Case Number of this action and shall be mailed to:

Indiana Department of Environmental Management
Accounts Receivable
P.O. Box 3295
Indianapolis, IN 46206

Online:

Accounts Receivable is accepting payments online by e-Check, Master Card, Visa or Discover. Please visit www.IN.gov/IDEM. Under Online Services, click Online Payment options and follow the prompts. A processing fee of \$0.40 plus 2.06% will be charged for credit card payments. A processing fee of \$0.15 will be charged for eCheck payments. The Case Number is required to complete the process.

Phone:

You may also call us at 317-234-3099 and follow the instructions for Master Card, Visa or Discover payments. A processing fee of \$0.40 plus 2.06% will be charged for credit card payments. A processing fee of \$0.15 will be charged for eCheck payments. The Case Number is required to complete the process.

15. In the event the terms and conditions of the following paragraphs are violated, Complainant may assess, and Respondent shall pay a stipulated penalty in the following amount:

<u>Paragraph</u>	<u>Stipulated Penalty</u>
Order paragraph #6	\$200 per week

Stipulated penalties shall begin to be assessed on the date after the Effective Date and shall continue until the documentation is submitted as required by the associated paragraph.

16. Stipulated penalties shall be due and payable no later than the thirtieth day after Respondent receives written notice that Complainant has determined a stipulated penalty is due; at which time, a separate invoice will be issued. Complainant may notify Respondent at any time that a stipulated penalty is due. Failure to notify Respondent in writing in a timely manner of a stipulated penalty assessment shall not waive Complainant's right to collect such stipulated penalty or preclude Complainant from seeking additional relief against Respondent for violation of this Agreed Order. Neither assessment nor payment of stipulated penalties shall preclude Complainant from seeking additional relief against Respondent for a violation of this Agreed Order; such additional relief includes any remedies or sanctions available pursuant to Indiana law, including, but not limited to, civil penalties pursuant to IC 13-30-4.
17. In the event that the monies due to IDEM pursuant to this Agreed Order are not paid on or before their Due Date, Respondent shall pay an additional penalty of 10 percent, payable to "Indiana Department of Environmental Management" and shall be payable to IDEM in the manner specified in Paragraph 14, above.
18. Signatories to this Agreed Order certify that they are fully authorized to execute this Agreed Order and legally bind the party they represent.

19. This Agreed Order shall apply to and be binding upon Respondent and all successors and assigns. Respondent shall provide a copy of this Agreed Order, if in force, to any subsequent owners, successors, or assigns before ownership rights are transferred.
20. No change in ownership, corporate, or partnership status of Respondent shall in any way alter the Respondent's status or responsibilities under this Agreed Order.
21. Respondent shall ensure that all contractors, firms, and other persons performing work under this Agreed Order comply with the terms of this Agreed Order.
22. In the event that any terms of this Agreed Order are found to be invalid, the remaining terms shall remain in full force and effect and shall be construed and enforced as if this Agreed Order did not contain the invalid terms.
23. This Agreed Order is not and shall not be interpreted to be a permit or a modification of an existing permit. This Agreed Order, and IDEM's review or approval of any submittal made by Respondent pursuant to this Agreed Order, shall not in any way relieve Respondent of the obligation to comply with the requirements of any applicable permits or any applicable Federal or State laws or regulations.
24. Complainant does not, by its approval of this Agreed Order, warrant or aver in any manner that Respondent's compliance with any aspect of this Agreed Order will result in compliance with the provisions of any permit, order, or any applicable Federal or State law or regulation. Additionally, IDEM or anyone acting on its behalf shall not be held liable for any costs or penalties Respondent may incur as a result of Respondent's efforts to comply with this Agreed Order.
25. Nothing in this Agreed Order shall prevent or limit IDEM's rights to obtain penalties or injunctive relief under any applicable Federal or State law or regulation, except that IDEM may not, and hereby waives its right to seek additional civil penalties for the violations specified in the NOV.
26. Nothing in this Agreed Order shall prevent IDEM or anyone acting on its behalf from communicating with the U.S. Environmental Protection Agency (U.S. EPA) or any other agency or entity about any matters relating to this enforcement action. IDEM or anyone acting on its behalf shall not be held liable for any costs or penalties Respondent may incur as a result of such communications with the U.S. EPA or any other agency or entity.
27. This Agreed Order shall remain in effect until IDEM issues a Resolution of Case letter to Respondent.
