Dear Mr. Gadus,

Re: Lead and Copper
Consumer Notice of Lead Results Violation
Drinking Water Branch—Compliance Section
PWSID #IN5252019
Carmel, Miami County

Indiana Department of Environmental Management (IDEM) staff of the Drinking Water Branch has conducted a review of your drinking water monitoring requirements. This review was conducted in order to determine compliance with 40 CFR 141.85 (as incorporated by reference at 327 IAC 8-2.7-1.1).

This review noted the following violations:

Contaminant	Monitoring Period	Violation	Corrective Action
Lead and Copper	July 1 to December 31, 2025	Failure to provide Consumer Notice of Lead Results	Notify customers of lead results in drinking water and submit a copy of notification to our office

If you provided the required notification to your customers, please submit a copy of the notification to the following address. If you did not provide the required lead consumer notice, you will need to complete the notification and distribute to customers within ten (10) days of receipt of this letter. The Consumer Notice of Lead Result form is enclosed for your use in notifying your customers. You are also required to provide confirmation to our office that the notification was done. **Submitting a copy of at least one of the consumer notices along with the certification form will return your public water system back to compliance with this rule.** Failure to submit the required information may result in a referral to IDEM's Office of Water Quality, Enforcement Section.
