Dear Mr. James:

IDEM strongly encourages the use of pollution prevention techniques to reduce pollution emitted to the environment, and to conserve resources such as water and energy. Implementation of such techniques can decrease manufacturing costs/overhead, increase worker safety, and perhaps lessen the impact of environmental regulations upon your operation. For more information on pollution prevention, call IDEM's Office of Pollution Prevention and Technical Assistance at 800-988-7901 or visit www.in.gov/idem/prevention.

Sincerely,
