Yes, they did have a smooth bore tap in the correct place.

Thanks!

Kali

Hi, Kali. I just processed the SSP approval for 2710607. And I noticed they have an outstanding deficiency for a source water sample tap (SWST) – from Jun 2013. With this new approval, does that mean they now have a proper SWST? Please let me know.

Thank you!

Hi Anne,

The 12 attached SSP approval letters are ready to be mailed out and filed in VFC.

The pathway for these is:

Program: DW Field Inspections
IDEM Document Type: Site Sampling Plan
Document Date: Date on the top of approval letter
Security Group: Internal

Thank you,

Chase Spaw
