Attn: Anthony Tobias  
100 N. Senate Avenue  
Indianapolis, IN 46204

Dear Sir,

In response to our recent e-mail conversation regarding our failure to submit a water test in April, per your instructions, this letter is sent to explain why we did not do our test. According to my records, the church was closed from March 15 to May 31. The reasons for our closure for this period of time are that most of our adult congregation is over 65 (and therefore at high risk for Covid-19) and, we reside in Cass County which has been a hot spot for this virus. The information given by Governor Holcomb and the CDC made us resolve to close until it was safe to return to public meetings. We did not think about our test.

Please insert this letter into our file and instruct us on how to proceed.

Thank you,

Joseph P. Alexander  
Pastor, Landmark Baptist Church
