<p>Comments: Reporter stated they had a power loss at ~2:30 AM and the lift stations shut down. Process water from can washing backed up and lowed into the Stink Ditch. The estimate 10-15 thousand gallons was released. This water normally runs to their waste water treatment. At 7:00 they used generators to operate the lift stations again. No impact on aquatic life seen at this point. Lawson Septic Service is on site with a vac truck recovering the materiel.</p>
