RE: FESOP Renewal – Printpack, Inc. Bloomington
FESOP Renewal No F105-34794-00046
Administrative Amendment 105-42832-00046

Dear Sir or Madam:

Enclosed are two copies of the FESOP Permit (105-42832-00046) Renewal application for the Printpack, Inc. facility located in Bloomington, Monroe County. An additional copy has been sent to the Monroe County Public Library.

Some equipment has been removed; permit equipment lists should be corrected accordingly.

Photopolymer plate-making emission units PH01 listed in permit section A.2.(e) has been removed from the factory. Please delete reference to PH01.

Manual Parts Washer PW02 Insignificant Activity listed in permit section A.4.(30) has been removed from the factory. Please delete reference to PW02.

Insignificant Activity listed in permit section A.4.(1) reads – “Activities or machine units, identified as BM01 through BM34, for which the potential uncontrolled emissions for PM/PM10/PM2.5 are equal to or less than one (1) pound per day.

These units are actually referred to as BG01 - BG34 in business accounting reports and by signage posted in the plant. There is no reference to “BM”. Please use the letters BG for Bag Machine rather than BM. Bag machines BG01 – BG10 are no longer at the plant. Start the permit listing with BG11.

There is also a large format bag machine that produces larger bags such as pet food bags. This machine is referred to as BG35. There will be two pouch machines added in late 2024/ early 2025 referred to as BG36 and BG37. These three machines (BG35 -BG37) are not point source emissions. A blade cuts the bag with no discernible emissions. One could argue they don't need to be listed as an insignificant source; however, this could create confusion since all the equipment is referenced as a "bag machine" by the business. For clarity, Printpack recommends permit section A.4.(1) be revised to read:

Bag making activities or machine units, identified as BG11 through BG37, for which the potential uncontrolled emissions for PM/PM10/PM2.5 are equal to or less than one (1) pound per day.

Printpack also reminds IDEM the 10/16/2020 notification letter to Mr. Ghassan Shalabi regarding photopolymer plate cleaning insignificant source (326-IAC-2-7-1(21)DD.[Cleaners/Solvents with a vapor pressure less than 15 mmHg @ 100F] should this equipment need to be specifically listed in section A.4 as an insignificant source.

Please contact me at 404-460-7448 if you need additional information to process this application.

Sincerely,

Stephen L. Carpenter
Sr. Corporate Environmental Engineer
