> Re: Confined Feeding Operation **Approval Renewal** Denu Bros., Inc. Dubois County Farm ID # 3741 Animal Waste Number AW- 5373

Dear Kevin Denu:

Your confined feeding operation (CFO) application seeking approval to renew your existing turkey operation in Dubois County is approved.

This approval renewal will become effective on July 31, 2024.

The application and supporting information was determined to satisfy both the Confined Feeding Control Law (IC 13-18-10), and the Confined Feeding Operation regulation (327 IAC 19). Your CFO Approval and the other enclosures to this letter provide important information about your responsibilities as a CFO owner or operator. Please take time to review these documents before putting them in your operating record. Feel free to contact us if you have any questions.

Your CFO meets the definition of a Concentrated Animal Feeding Operation (CAFO). Please note that CAFOs have additional requirements. The requirements are explained in more detail in the CFO Approval.

You can view this document as well as all public records for the CFO on IDEM's Virtual File Cabinet (VFC) website. Go to <u>https://www.in.gov/idem/legal/public-records/virtual-file-cabinet</u>, which is the VFC page. Once there, click on the *Virtual File Cabinet* in the blue box. Select the "*Quick Search*" option in the upper right hand corner. Select "CFO/CAFO #" from the dropdown menu. Type in the farm ID #, **3741**, in the box to the right of the "*Quick Search*". Click the *Search arrow* button. You can sort the search results by clicking on the title at the top of the column for each of the following categories: *Content Id*, *Document Date, or Document Type*. IDEM posts documents within approximately 5 days of when we send or receive them. Contact us if you cannot locate a particular document.

Kevin Denu, Operator Dubois County, Farm ID# 3741 Page 2

A weekly posting of pending permits is located on our agency website at: <u>http://www.in.gov/idem/cfo/2329.htm</u>.

This decision becomes effective immediately upon issuance unless a person aggrieved or adversely affected by the decision files a request for an administrative review and stay of the decision. For more information on appealing this decision, please refer to the attached "*Notice of Right to Administrative Review*" document.

CONTACT INFORMATION

Questions concerning issuance of this approval should be directed to the Confined Feeding Program at (317) 232-4473, or by FAX at (317) 232-3403.

Sincerely,

Joseph D Hortz

Joseph D Goetz, Section Chief Confined Feeding Permits Section Office of Land Quality

Notice of Right to Administrative Review

If you wish to challenge this decision, you must file a Petition for Administrative Review with the Office of Environmental Adjudication (OEA), and serve a copy of the petition upon IDEM. The requirements for filing a Petition for Administrative Review are found in IC 4-21.5-3-7, IC 13-15-6-1 and 315 IAC 1-3-2. A summary of the requirements of these laws is provided below.

A Petition for Administrative Review must be filed with the Office of Environmental Adjudication (OEA) within fifteen (15) days of the issuance of this notice (eighteen (18) days if you received this notice by U.S. Mail), and a copy must be served upon IDEM. Addresses are:

Director Office of Environmental Adjudication Indiana Government Center North Room N103 100 North Senate Avenue Indianapolis, Indiana 46204 Commissioner Indiana Department of Environmental Management Indiana Government Center North Room 1301 100 North Senate Avenue Indianapolis, Indiana 46204

The petition must contain the following information:

- 1. The name, address and telephone number of each petitioner.
- 2. A description of each petitioner's interest in the approval.
- 3. A statement of facts demonstrating that each petitioner is:
 - a. a person to whom the order is directed;
 - b. aggrieved or adversely affected by the approval; or
 - c. entitled to administrative review under any law.
- 4. The reasons for the request for administrative review.
- 5. The particular legal issues proposed for review.
- 6. The alleged environmental concerns or technical deficiencies of the approval.
- 7. The approval terms and conditions that the petitioner believes would be appropriate and would comply with the law.
- 8. The identity of any persons represented by the petitioner.
- 9. The identity of the person against whom administrative review is sought.
- 10. A copy of the approval that is the basis of the petition.
- 11. A statement identifying petitioner's attorney or other representative, if any.

Failure to meet the requirements of the law with respect to a Petition for Administrative Review may result in a waiver of your right to seek administrative review of the approval. Examples are:

- 1. Failure to file a Petition by the applicable deadline;
- 2. Failure to serve a copy of the Petition upon IDEM when it is filed; or
- 3. Failure to include the information required by law.

If you seek to have the approval stayed during the administrative review, you may need to file a Petition for a Stay of Effectiveness. The specific requirements for such a Petition can be found in 315 IAC 1-3-2 and 315 IAC 1-3-2.1.

Pursuant to IC 4-21.5-3-17, OEA will provide all parties with notice of any pre-hearing conferences, preliminary hearings, hearings, stays, or orders disposing of the review of this action. If you are entitled to notice under IC 4-21.5-3-5(b) and would like to obtain notices of any pre-hearing conferences, preliminary hearings, hearings, stays, or orders disposing of the review of this action without intervening in the proceeding you must submit a written request to OEA at the address above.

More information on the review process is available at the website for the Office of Environmental Adjudication at http://www.in.gov/oea.

CONFINED FEEDING OPERATION (CFO) APPROVAL

Appli	Applicant: (Permittee) Denu Bros., Inc.							Farm ID	3741	AW#: <u>5373</u>	
Operation Name: KLD Farm									Dubois		
Property Owner: Denu Bros., Inc.								Contact Person:	Kevin Denu

Γ					A	pproval Typ	be				
		Construction		Approval w/o	Х	Renewal	Ame	endment	Fa	cility Change	
				Construction							
ſ		Transfer		Other		Notes:					

Effective Date: July 31, 2024

Expiration Date: July 31, 2029

Renewal Submission Deadline: July 1, 2029

Permit renewal applications must be submitted no less than 30 days prior to the permit expiration date. If the renewal submission deadline falls on a Sunday or holiday, the renewal must be submitted prior to that date.

The purpose of the CFO approval program is to protect water quality in Indiana through standards for constructing and operating CFOs and associated manure management structures.

As the owner/operator, you must:

- meet all terms and conditions of this approval, the Confined Feeding Control Law IC 13-18-10, the Confined Feeding Operation regulations 327 IAC 19, and the Spill Rule 327 IAC 2-6.1;
- allow representatives of IDEM to enter your CFO and review your records, inspect the operation, and sample or monitor the operation when needed; and
- keep a copy of this approval as part of your operating record.

In order to receive approval to operate your CFO beyond the expiration date listed above, you must submit a complete application for an approval renewal to the IDEM by the renewal submission deadline.

This CFO Approval is authorized under IC 13-18-10 and becomes effective on the date listed above.

Joseph D Goetz, Section Chief Confined Feeding Permits Section

FACILITY DESCRIPTION

Your CFO meets the definition of a Concentrated Animal Feeding Operation (CAFO). [See 40 CFR 122.23(b) (2)]

The existing CFO and associated manure control facilities were previously renewed July 31, 2019, Animal Waste Number AW-5373. The following **existing** and or previously approved structures are reapproved:

- One previously approved (June 9, 2004; AW# 5373) turkey confinement building, identified as **E1**. This 25,000 square foot earthen-floored building provides solid manure storage for 7,500 grow out turkeys.
- One previously approved (June 9, 2004; AW# 5373) turkey confinement building, identified as **E2**. This 25,000 square foot earthen-floored building provides solid manure storage for 7,500 grow out turkeys.
- One previously approved (May 21, 1992; AW# 2488) turkey confinement building, identified as **E3**. This 20,000 square foot earthen-floored building provides solid manure storage for 6,000 grow out turkeys.
- One previously approved (May 21, 1992; AW# 2488) turkey confinement building, identified as **E4**. This 20,000 square foot earthen-floored building provides solid manure storage for 6,000 grow out turkeys.
- One previously approved (May 21, 1992; AW# 2488) turkey confinement building, identified as **E5**. This 20,000 square foot earthen-floored building provides solid manure storage for 6,000 grow out turkeys.
- One previously approved (May 21, 1992; AW# 2488) turkey confinement building, identified as **E6**. This 20,000 square foot earthen-floored building provides solid manure storage for 6,000 grow out turkeys.
- One previously approved (June 9, 2004; AW# 5373) turkey confinement building, identified as **E7**. This 25,000 square foot earthen-floored building provides solid manure storage for 7,500 grow out turkeys.
- One previously approved (June 9, 2004; AW# 5373) turkey confinement building, identified as **E8**. This 25,000 square foot earthen-floored building provides solid manure storage for 7,500 grow out turkeys.
- One previously approved (May 21, 1992; AW# 2488) turkey confinement building, identified as **E9**. This 13,500 square foot concrete-floored turkey poult brooder building provides solid manure storage for 14,000 turkey poults (Day 1 to 4/5 weeks of age).
- One previously approved (June 9, 2004; AW# 5373) turkey confinement building, identified as **E10**. This 13,500 square foot concrete-floored turkey poult brooder building provides solid manure storage for 14,000 turkey poults (Day 1 to 4/5 weeks of age).
- One previously approved (approved June 9, 2004; AW# 5373) turkey confinement building, identified as **E11**. This 12,150 square foot concrete-floored turkey poult brooder building provides solid manure storage for 11,000 turkey poults (Day 1 to 4/5 weeks of age).

FACILITY DESCRIPTION (continued)

Mortalities are managed on-site in a concrete-floored, side-wall contained, roof-covered mortalities composting building, identified as **C-1**, on the farmstead plan.

Your CFO is approved for total capacity of 93,000 turkeys (39,000 turkey poults and 54,000 grow out turkeys) as detailed on the attached facility detail sheet and farmstead plan. The manure control facilities, including the availability of acreage for manure application, meet or exceed the requirements of the Confined Feeding Operation regulations 327 IAC 19.

SPECIAL APPROVAL CONDITIONS

Please note that CFOs meeting the definition of a CAFO have three requirements that differ from those for farms not defined as CAFOs. These include storm water management practices (327 19-11-1(a)), manure application rate limitations (327 IAC 19-14-3(d)) and manure application activities (327 IAC 19-14-4(e)).

The storm water management practices refer to requirements of the federal regulation for CAFOs (40 CFR 122.42(e) (2)). The CFO Guidance Manual outlines those requirements and can be viewed in the section of the Guidance Manual titled "*Storm Water Management for CAFOs and NPDES CAFO Individual Permit Holders*". It may be accessed using the following internet address:

https://www.in.gov/idem/cfo/files/guidance_manual_cfo_program.pdf .

Marketing and Distribution of Manure (327 IAC 19-14-7)

Records for marketing and distributing 100% of the solid manure generated at this turkey operation has been provided, therefore this approval allows for a waiver of 100% of this turkey operations land application acreage requirements. Land application of manure by the CFO is still allowed regardless of the waiver.

GENERAL APPROVAL CONDITIONS

- 1. An Approval Renewal application must be submitted to IDEM no less than 30 days prior to the approval expiration date to maintain a valid approval for your operation. The application must include a Manure Management Plan (MMP) which details any changes made at the operation, outline procedures for soil testing and manure testing, and include a current farmstead plan and Natural Resource Conservation Service (NRCS) soil survey maps of application ground. The soil survey maps must detail the boundaries of the field(s) and include the property owner name and available spreadable acres after setbacks are subtracted. The MMP must also contain a request for land application acreage requirement waiver if a manure distribution program is used, or contain a description of alternate methods proposed for managing the manure.
- 2. This approval does not authorize any injury to any person or private property; the invasion of other private rights; the infringement of federal, state, or local laws or regulations; nor does it preempt any duty to comply with other federal, state or local requirements, permits or approvals.
- 3. Your request for an approval modification, revocation and reissuance, or termination does not suspend any approval term or condition. The approval may be modified, revoked and reissued, or terminated, for causing or threatening to cause harm to the environment.
- 4. The conditions of this approval are separable and if any condition of the approval is determined to be invalid the application of the condition to other circumstances and the remainder of this approval will not be affected.
- 5. You may not start construction of a CFO, or expansion of a CFO that increases animal capacity and/or manure containment capacity, without obtaining prior approval from IDEM as required by 327 IAC 19-1-2(b).
- 6. Prior to any construction/land-disturbing activities of one acre or more, contact IDEM's Stormwater Program and the local county Soil and Water Conservation District (SWCD) office for permitting information. Visit IDEM's Stormwater Program website at <u>http://www.in.gov/idem/stormwater/construction-land-disturbance-permitting</u> or <u>http://www.in.gov/idem/stormwater/2331.htm</u> or call 317-233-8488. Technical resources are also available through the local Soil and Water Conservation District (SWCD) and in the Indiana Storm Water Quality Manual (<u>http://www.in.gov/idem/stormwater/2363.htm</u>). Please Note: Applicable permits are required prior to any land disturbing activities including site preparation.

Office of Land Quality

INSTRUCTIONS:

This Section is completed for ALL application types. Prepare a Farmstead Plan that meets the requirements noted in the Section A. Farmstead Plan Checklist. Attach the Farmstead Plan to this form. Complete the Facility Detail Information in Section D. using the Section B. Checklist and the examples in Section C. Check the boxes next to each item in Sections A. and B. as you verify that the Farmstead Plan and Facility Detail Information sheets are complete. Failure to complete this section accurately will cause delays in processing this application.

А.	FARMSTEAD PLAN CHECKLIST
$\boxed{}$	1. The farmstead plan must be on a sheet no less than $8^{1}/_{2}$ inches by 11 inches in size.
Ø	2. The farmstead plan must show all existing and proposed waste management systems, and all of the following features within 500 feet of the waste management systems (label each feature):
	a) 🗸 Residences
	b) 🗸 Surface waters of the state
	c) Public and private roads
	d) Vater well locations
	e) Characteristics of karst terrain as identified in 327 IAC 19-2-24
	f) V Drainage patterns
	 g) Property boundary line h) All outlets of known tile drains or any other type of subsurface or surface drainage outlet
	 h) ✓ All outlets of known tile drains or any other type of subsurface or surface drainage outlet i) ✓ Drainage inlets, including water and sediment control basins showing their outlets, and ponds with outlets
	 j) Mortality management sites
J	3. The farmstead plan must be legible and either:
	a) Drawn to approximate scale; or
	b) Show specific distances between the waste management systems and the features listed
	immediately above in section 2 that are within 500 feet of the existing or proposed
	waste management system.
В.	FACILITY DETAIL INFORMATION CHECKLIST
	g the instructions below, complete Part D. of this section, "Facility Detail Information" sheet for all
	inement and waste structures present or proposed at the site. If the rows of the provided Section D. "Facility
Deta	il Information" sheet are not properly sized for your needs, you may create your own table with the same
colu	mn headers and required information listed below.
	1. Label the Farmstead Plan – The waste management systems (confinement and waste structures) must be uniquely identified on the farmstead plan. Existing structures should be labeled with an "E". Proposed structure should be labeled with a "P". After labeling each building with a "P" or "E", number the structures. Your structures should be labeled as "E1", "E2", "E3", etc.; or "P1", "P2", "P3", etc.; or a combination of the two. Other unique labeling systems will be accepted.
	2. Animal Type – Animal type(s) listed on Animal Information Attachment.
V	3. Number of Animals – The MAXIMUM APPROVED CAPACITY of the unit at any one time.
	4. Solid or Liquid – Denote if the manure in the unit is handled as a solid or liquid.
N	5. Date Constructed – List the approximate date of construction for existing waste storage structures.
Ī	 6. Water Uses (gallons/unit of time) – If the inside of the building is washed, indicate how much water is used and how often the building is cleaned. Also include any excess non-contact cooling water or drinking water directed to the waste management system.
Ð	7. Brief Description – Provide a brief description of the facility and waste management system. Indicate if the unit shares manure storage with another unit (i.e. common lagoon system, slurry store, etc.). Previously approved RECEIVED structures must have the approval number and date approved listed. CONFINED FEEDING OPERATIONS

C. FACILITY DETAIL SHEET EXAMPLES

Example 1

Existing Previously Approved Swine Facility Proposing an Expansion

You are seeking approval for a proposed 1,000 head finishing building with a flush gutter system to a proposed lagoon. The lagoon will service the new building as well as two existing buildings that were approved on 12/17/1994, AW #1234. One of the existing buildings contains 1,500 nursery pigs, the other 300 gestating sows. The new finishing building will be washed out between groups of hogs with about 5,000 gallons of water per cleaning. You labeled the 1,000 head finisher "P1" and the lagoon "P2" on the farmstead map.

				ACILITY DETAI	L INFORMATION	
Label on Farmstead Map	Animal Type	Number of Animals	Solid or Liquid	Date Constructed (for existing buildings)	Water Uses (gallons/unit of time)	Brief Description:
P1	Finishing Hogs	1,000	Liquid	N/A	5,000 gallons/ 3 times a year	A finishing building with flush gutter system to lagoon that will service two (2) other buildings on site.
E1	Nursery Pigs	1,500	Liquid	3/95	N/A	Shallow pits, previously approved on 12/17/1994, AW# 1234. Pit will be connected to new lagoon.
E2	Gestating Sows	300	Liquid	3/95	N/A	Six (6) foot concrete pit, previously approved on 12/17/1994, AW# 1234. Pit will be connected to new lagoon.
P2	N/A	N/A	Liquid	N/A	N/A	A clay lined lagoon will service the proposed building as well as the two (2) buildings previously approved on 12/17/1994, AW#1234

Example 2

Existing Turkey Facility with No Prior Approval Proposing an Expansion

You currently own/operate a 20,000-bird broiler barn that does not require an approval, and wish to expand your operation by adding another 20,000-bird broiler barn and a manure compost building. Your total capacity will rise from 20,000 to 40,000 birds. You now must seek approval for both the existing barn and the proposed barn.

			F	ACILITY DETAI	LINFORMATION	J
Label on Farmstead Map	Animal Type	Number of Animals	Solid or Liquid	Date Constructed (for existing buildings)	Water Uses (gallons/unit of time)	Brief Description:

CFO / CAFO APPLICATION PACKET SECTION IX - Manure Management Plan (MMP)

Part of State Form 55051 (R5 / 10-22) Confined Feeding Operation (CFO) National Pollutant Discharge Elimination System Concentrated Animal Feeding Operation (NPDES CAFO) Approved by State Board of Accounts, 2022 INDIANA DEPARTMENT OF ENVIRONMENTAL MANAGEMENT Confined Feeding Section Office of Land Quality 100 North Senate Avenue IGCN Rm 1101 Indianapolis, Indiana 46204 (800) 451-6027 request CFO Permits

INSTRUCTIONS: <u>This Section is completed for ALL application types except NPDES applications.</u> The below required information supplements the general information and plot maps attachments for a complete CFO Approval Renewal application or construction application. CFO Approval Renewal applications and construction applications for expansions at currently regulated operations may also utilize the Marketing and Distribution of Manure attachment, if appropriate. Complete all portions of the form below. This form is required and supersedes all previous versions. IDEM will not accept substitutes, altered, or previously supplied forms.

MANURE MANAGEMENT PLAN

1. Manure Testing

Consult Purdue University Cooperative Extension Service Publications AY-277, ID-101, ID-205 "Swine Manure Management Planning", ID-206 "Poultry Manure Management Planning", ID-208 "Dairy Manure Management Planning" for guidance on procedures for manure testing.

a) Manure Sample Collection Procedures:

for Sampling

- b) Nutrient Assessment:
 - Private laboratory does a nutrient analysis of sample(s).
 - Other (explain):
- c) Sampling Frequency:
 - Minimum of once every year for CFOs.
 - Annual sampling required for CAFOs with a NPDES permit.
- 2. Soil Testing

You can consult Purdue University, Cooperative Extension Service Publication AY-368-W for guidance on procedures for soil testing. A soil test must provide sufficient information about soil fertility to allow for nutrient recommendations for existing or planned crops. Soil tests may not represent more than twenty (20) acres per sample.

a) Do, or will, you perform soil testing for this operation?

Private laboratory does nutrient analysis.

Yes, all or a portion of manure is, or will be, applied to land controlled by the operator *(complete b), c), and d) below)*.

No, 100 % of manure is, or will be, either marketed or distributed (stop here - b), c), and d) below do not need to be completed).

b) Sample Collection Method:

- Management unit (field level)
- Grid method
- By soil type
- ____ Other (explain):
- c) Nutrient Assessment:

- Other (explain):
- d) Sampling Frequency:

CONFINED FEEDING OPERATIONS Minimum of once every four (4) years for all CFOs (sampling may be done more often). June 27, 2024

State Form 56029 (4-16) INDIANA DEPARTMENT OF ENVIROMENTAL MANAGEMENT

The Indiana Department of Environmental Management Confined Feeding regulation 327 IAC 19-14-7 states the following:

Section (a) The owner/operator of the confined feeding operation or other feeding operation shall provide an information sheet to any person that receives or purchases more than ten (10) cubic yards or 4,000 gallons of manure in a year from the confined feeding operation or other feeding operation unless the owner/operator takes responsibility for applying the manure.

Section (b) of 327 IAC 19-14-7 requires that the information sheet must contain, at a minimum, the following information:

- 1. Name and address of operation providing the manure;
- 2. A statement indicating that it is unlawful to allow the manure to enter any waters of the state;
- 3. Information on the nutrient content of the manure (nitrogen and phosphorous levels required); and,
- 4. The manure application requirements of 327 IAC 19. (see reverse side for guidelines)

The owner/operator must maintain records of manure recipients and the quantities that the recipients received. Therefore, the following information complies with the minimum standards imposed by 327 IAC 19-14-7.

Manure Recipient Name and Address:	Heath Gatasell

Section (a) The owner/operator of the confined feeding operation or other feeding operation shall provide an information sheet to any person that receives or purchases more than ten (10) cubic yards or 4,000 gallons of manure in a year from the confined feeding operation or other feeding operation unless the owner/operator takes responsibility for applying the manure.

Section (b) of 327 IAC 19-14-7 requires that the information sheet must contain, at a minimum, the following information:

- 1. Name and address of operation providing the manure;
- 2. A statement indicating that it is unlawful to allow the manure to enter any waters of the state;
- 3. Information on the nutrient content of the manure (nitrogen and phosphorous levels required); and,
- 4. The manure application requirements of 327 IAC 19. (see reverse side for guidelines)

The owner/operator must maintain records of manure recipients and the quantities that the recipients received. Therefore, the following information complies with the minimum standards imposed by 327 IAC 19-14-7.

Manure Recipient Name and Address:

Manure Nutrient Content (use appropriate units)	Nifrogen	Phosphorous	Potassium
