That is the second of the 4 tanks to leak. 2 of the tanks are only 8 years old and the other 2 are 10 years old. The facility has two new stainless steel tanks on site and two more on order to replace all of the tanks.

Good morning,

Forgot to ask, will anyone be addressing the condition of the tank that caused the release? That spot where it rusted through might cause another problem.

Take care,

Dwayne Caldwell OSC
