Re: NSPS Subpart Dc, Initial Notification
Steel Warehouse Company, LLC.
2722 Tucker Drive, South Bend, Indiana 46619
Permit: F141-46885-00155

To Whom It May Concern,

Attached please find the Initial Notification reporting documents as required by NSPS Subpart Dc for Steel Warehouse Company - located at 2722 Tucker Drive, South Bend, Indiana, 46619. The following documents are included:

- Completed Initial Notification Form

This notification pertains to the installation and initial start-up of SB-03. SB-03 is a natural gas fired 12.5 MMBTU/hr fire tube type boiler. This boiler does not have the capability to burn back-up or secondary fuel. The boiler was installed in 1999, but the facility failed to submit this notification on time. Please consider this letter and the attached Initial Notification form as fulfilling the requirements for an Initial Notification as required by NSPS Subpart Dc. Please call M3V, LLC at 800-318-1050 if you have any questions regarding this submittal, as we are assisting Steel Warehouse with this issue.

Respectfully,

M3V, LLC

Marius Peter

BOILER INFORMATION SHEET (this form may be used for NSPS initial notification requirements)

Table 1. Determining if you have an NSPS-affected boiler:

Questions	✓yes	✓no	Affected Status
Q1. Is the heat input capacity of the boiler more than 10 MMBtu/hr?	x		If your boiler is less than 10 MM Btu./hr, it is NOT subject to the NSPS.
Q2. Was the boiler constructed after June 9, 1989?	x		If you answered yes to both Q1 and Q2, the boiler is subject to the NSPS.
Q3. Has there been any physical or operational change (such as a fuel switch) made to an existing boiler since 1989 that resulted in an increase in emission rates of sulfur dioxide or particulate matter?		x	If you answered yes to both Q1 and Q3, the boiler is subject to NSPS. The boiler is affected by NSPS even if its heat input capacity prior to the modification was below 10 MM Btu/hr but is now over 10 MM Btu/hr.
Q4. Has the boiler been reconstructed since 1989? A boiler is "reconstructed" if the cost of its replacement components is more than 50% the cost of a new boiler.		x	If you answer yes to both Q1 and Q4, the boiler is subject to NSPS.

Table 2. Company information:

Legal Name: Steel Warehouse Company, LLC.	Other company name (if different than legal name):
Mailing Address: 2722 W. Tucker Drive	Site Address (if different than mailing address):
City, State, Zip Code: South Bend, IN 46624	City, County, Zip Code:
Standard Industrial Classification (SIC): 3316	E-mail Address: james.lavengood@steelwarehouse.net
Contact Name: James Lavengood	Telephone Number: (574) 229-6715
Title: Maintenance Superintendent	Fax Number:

Table 3. Boiler Information (use separate sheets for each boiler):

Boiler identification/make	SB-03	Rated design heat input capacity	12.5 MMBtu/hr
Boiler model number	3P-300	Primary fuel type	Natural Gas
Date (year) of boiler manufacture	1999	Estimated quantity of primary fuel used per year	108.25 MMCF
Date of original boiler construction, installation or reconstruction	3/10/1999	Secondary fuel type	None
Date of boiler startup	3/11/199	Estimated quantity of secondary fuel used per year	None
