Re: Inspection Summary Letter
Solid Waste Program ID: 49-59

Dear Mr. Bailey:

On June 24, 2024, representatives of the Indiana Department of Environmental Management, Office of Land Quality, conducted an inspection of EQ Industrial Services, located at 2650 Shadeland Ave., Indianapolis, Indiana. This inspection was conducted pursuant to IC 13-14-2-2. For your information, and in accordance with IC 13-14-5, a summary of the inspection is provided below:

Type of Inspection:	Routine
Results of Inspection:	No violations were observed (see attached inspection report).

Please direct any questions regarding this letter to Hunter Pace at (317) 508-1206 or hpace@idem.in.gov.

Sincerely,

Hunter Pace, Environmental Manager
Industrial Waste Compliance
Compliance Branch
Office of Land Quality

We appreciate your input!

INDUSTRIAL WASTE PROCESSING FACILITY INSPECTION REPORT

State Form 55960 (R /9-19)
Indiana State Department of Environmental Management

INDIANA DEPARTMENT OF
ENVIRONMENTAL MANAGEMENT
Industrial Waste Compliance Section
Office of Land Quality
100 N. Senate Avenue
Indianapolis, IN 46204-2251

Facility Name EQ Industrial Services		
EPA Identification Number INR000125641		
Location 2650 N Shadeland Ave.		
City Indianapolis	County Marion	ZIP Code 46219
Inspector Hunter Pace	Inspection Date (month, day, year) June 24, 2024	
Other IDEM Representatives Mason Ellis		
Primary contact during inspection Tony Bailey, Ben Noble		

A. Pre-Inspection File Review	
Solid Waste Facility Permit Number/Issuance Date (month, day, year) Solid Waste Program ID 49-59: Issued February 24, 2022. Expires February 5, 2027 (VFC# 83285905)	
Solid Waste Facility Permit Reviewed by Inspector: Date (month, day, year) June 24, 2024	
Permitted Waste Handling/Storage Areas	
Previous Inspections: Conducted November 20, 2023	
Unresolved violations/comments: No unresolved violations.	

B. Industrial Waste Processing Facility Inspection Comments

Background

EQ Industrial Services is a 10-day hazardous waste transfer facility, a large quantity universal waste handler, and a used oil transporter and processor. The facility is also a registered waste tire transporter (049-T-00654). The facility also operates as a solid waste processing facility that transfers solid waste and bulks solid waste.

Inspection Summary

On June 24, 2024, IDEM staff conducted an inspection of EQ Industrial Services, Inc. IDEM staff were greeted by Mr. Ben Noble and Mr. Tony Bailey, employees of the facility. IDEM staff presented credentials and explained the purpose for the visit. Mr. Noble and Mr. Bailey agreed to give IDEM staff a tour of the facility.

IDEM staff, Mr. Noble, and Mr. Bailey began a walkthrough of the facility beginning in the main storage area of the warehouse, as well as the hazardous waste transfer area. IDEM staff could observe a variety of 55-gal. drums and bagged containers of labelled non-hazardous waste in the waste storage area. All containers were in good condition, and the walkways were clean and clear of refuse. IDEM staff could also observe a covered roll-off container, which facility staff stated would be used for the facility's consolidation process in the future (see Photo 1). IDEM staff continued to the exterior of the facility and observed no waste being stored outside. Returning inside, IDEM staff requested a waste profile for a container labelled as "Non-hazardous liquid" (see Photo 2). IDEM staff also observed a fire extinguisher stored next to the storage area entrance. Mr. Noble confirmed that there was a first aid kit located in the building.

Returning to the reception area of the warehouse, IDEM staff inspected the facility's paperwork, including daily inspection logs and the requested waste profile. The inspection logs were completed properly, and the waste profile matched the label on the selected container (see attached document). IDEM staff also asked if the facility could send over confirmation of the quarterly waste tonnage report for the first quarter of 2024. IDEM staff then thanked Mr. Bailey and Mr. Noble for their time and left the facility.

Note: On June 24, 2024, IDEM staff received an email from Mr. Ben Noble containing the quarterly waste tonnage data for first quarter of 2024 (see attached spreadsheet). While checking the quarterly waste tonnage data, IDEM staff observed an entry of inbound material named as "Elemental Mercury Recyclable Good", and outbound data for mercury sent to Lighting Resources, LLC, a waste management company in Greenwood, IN. EQ Industrial Services is not permitted to accept mercury or mercury-containing waste per the facility's solid waste permit (VFC: 83285905). IDEM staff requested via email to Mr. Bailey and Mr. Noble to see documentation showing proof of sale to Lighting Resources, and Mr. Bailey responded with a manifest showing sale of elemental mercury as a recyclable good to Lighting Resources (see attached document). Site research of Lighting Resources shows that the facility is permitted to recover mercury from different vendors and refine it into a commercial product (VFC: 83529094, 83235927). EQ Industrial Services has not accepted mercury waste for disposal.

Conclusions

No violations were observed at the time of the June 24, 2024 inspection. IDEM staff recommends facility staff to confirm with the facility's permit manager to determine if a permit modification is needed before moving the consolidation process.

C. Industrial Waste Processing Facility Inspection Summary

C.1	<p>Violations. The checklist below is not comprehensive but includes the most common violations. Checked violations and additional violations are described in detail in Section C.2 and include location information, corrective measures, and compliance dates. Appropriate documentation, photographs and maps may also be attached. When appropriate, a representative portion of a facility or documents may be inspected. A description of those portions inspected is provided in Section B, Restricted Waste Site Inspection Comments.</p>

G. REGULATORY INFORMATION

1. Volatile Organic Concentration: (Per 40 CFR Part 264.1083 & 265.1084) <500 ppmw ≥500 ppmw

2. Has the material been treated after the initial point of generation? Yes No

3. If RCRA Hazardous:

- Wastewater WW=<1% TSS & TOC; 40 CFR Part 268.2
- Non-wastewater TSS/TOC>WW
- Alternative Treatment Standards for soil? > 50% soil; 40 CFR Part 268.49
- Alternative Treatment Standards for debris? 40 CFR Part 268.2(g) & (h); >50% of waste is >2.5 inch size
 - I confirm debris cannot reasonably be separated from non-debris by simple physical or mechanical means
 - I confirm debris has not been mixed/diluted with non-debris as prohibited in 40 CFR Part 268.3
- Waste meets LDR Treatment Standards

4. Treatment subcategory: (if applicable)

5. Is the site or waste/material, subject to NESHAP/MACT standard(s)? Yes No

6. Is the waste/material RCRA Hazardous containing Benzene and originating at a petroleum refinery (SIC 2911), chemical manufacturing plant (SIC 2800 thru 2899) or Coke by-product recovery plant (SIC 3312)?

Yes No (If yes, complete the Benzene Waste Operations Supplement and if applicable the Thermal Supplement)

H. GENERATOR'S CERTIFICATION

1. Is a specific facility or treatment technology requested? Yes No

2. Requested Technology: Sycamore Ridge

3. Thermal Processing: Yes No

4. Other specific restrictions requested:

5. Requested Facility:

Certificate Statement:

I certify that all information (including attachments) is complete, factual and is an accurate representation of the known and suspected hazards pertaining to waste/material described herein. I authorize Republic Services personnel to add supplemental information to the Waste/Material Profile Form, provided I am contacted and grant permission to do so. Republic Services may require re-submittal of the Waste/Material Profile Form if substantial changes are determined necessary. I authorize Republic Services personnel to obtain a sample from any waste/material shipment for purposes of verification and confirmation and understand that waste/material that does not conform to specifications described in this Waste/Material Profile Form may be rejected by Republic Services. I certify that I am familiar with the waste/material described herein through analysis and/or process knowledge and that all information provided is true, accurate, representative and complete and that this Waste/Material Profile Form was completed in accordance with the instructions provided.

If I am an agent acting on behalf of the generator, I also certify that I have permission to sign any and all waste/material characterization paperwork on the generator's behalf and that I can produce such certification in writing upon request.
