<u>INSPECTION BACKGROUND</u>	Following information is from the complaint form: I live next door to these people and after 9 pm they have been burning plastic/garbage that has a very potent fumes that come right to my house and gets trapped in my back porch. My back porch is less than 100ft from where they are burning. The toxins are strong enough to make me feel sick. This is not the first time they have done this, but it is becoming more frequent and should be stopped. They need educated on what they are doing to the environment and the organisms around them.

INSPECTION OBSERVATIONS AND COMMENTS

On Tuesday 12/2/2020 I drove to the area of the complaint. I observed from the roadway the house that had a wooden privacy fence all the way around the back of the property. Went to the rear of the property where the fence continues and was not able to see the backyard without going into the driveway and getting out of the car to investigate the backyard. There were no violations observed and no signs of open burning.
