

DEPARTMENT OF ENVIRONMENTAL MANAGEMENT

INDIANAPOLIS

OFFICE MEMORANDUM

DATE: June 8, 1987

TO: Lawrence County Landfill File 2B2
Permit No. 47-1THRU: Steven Poe *J.P.*FROM: Tim Hotz *TLH*

SUBJECT: Status Report on Landfill Closure

An inspection on December 11, 1986, found the landfill still not in compliance with 330 IAC 4 and their Consent Decree (Cause No. 82-C-83). A letter to the Lawrence County Commissioners listed the violations and their anticipated dates of completion. An inspection on June 2, 1987, noted considerable progress made on correcting violations pertaining to surface erosion, tires, and final cover. The small leachate seeps on the landfill property have been sealed off; the suspected leachate flowing into the off-site stream has been sampled and is in the process of being analyzed. If the analysis shows contamination to the receiving stream, measures will be taken to ensure this does not continue. Regrading and reseeding is to be completed by June 1, 1987. The deed recording still needs to be done after staff has determined the site is properly closed.

In light of the continuing progress on correcting the violations, I would recommend giving the County Commissioners a final completion date of July 31, 1987.
