### General Comments

On June 24, 2024, Fawn Petterson with IDEM's Emergency Response Section, referred a complaint to Charles Grady with IDEM's CFO Compliance Section. The complainant submitted a photo and stated an unmarked truck with a hose on the side of the road was observed at the approximate location of 65 E 400 S, Tipton. See attached complaint report.

On June 25, 2024, the CFO inspector went to the location and observed the area. See attached photos. Two photos taken before the rainstorm showing dry soil and one photo taken after the rainstorm and showing wet soil. The area is in a low spot which is believed to accumulate rainwater which prohibits growth. No manure was observed.

No further action is required by the CFO program.

### Description of Violations and Further Actions

The findings noted in this report do not include a compliance evaluation for the submittal of required construction notifications, construction affidavits, facility change notifications, as-built plans, waste storage structure closures, and special compliance monitoring reports or data.
