*Pike County Landfill #2 Post-Closure Semi-Annual Inspection (January 2024) – June 25, 2024*

Document VFC # Pending

Pike County Landfill #2

Pike County

SW Program ID 63-03

Dear Ms. Kristi Dischinger:

I reviewed the semiannual inspection comments in the *Pike County Landfill #2 Post-Closure Semi-Annual Inspection (January 2024)* (Report). We received the Report on June 25, 2024, from Regional Services Corp. on behalf of the facility.

I limited my review to aspects of the Report that address the groundwater monitoring wells and permanent methane monitoring probes during the January 29, 2024, inspection event.

The Report documents no issues with the gas monitoring probes or groundwater monitoring wells. Additionally, Photo 3 depicts groundwater monitoring well MW-23 and gas detection probe GP-2, which shows the facility maintaining an area clear of vegetation around the groundwater monitoring wells and gas detection probes.

I do not have any comments regarding the Report. The Engineering Section of IDEM's Permit Branch will review other aspects of the Report.

If you would like to discuss my review further, please let me know.

Sincerely,

Scott Beard  
Geologist 2
