Lead ER Staff	Caldwell, Dwayne			06/10/2024	

Comments: Caller reports a 2.5 inch bottle half full of what looks like mercury fell onto the garage floor. She states it broke up into many small beads. OSC warned her not to track the material into the house or vehicles. Sent her via text the contact link for environmental cleanup companies and suggested she contact her insurance agent . OSC contacted Rick Plew with the IDOH to ask if they were available for screening. He replied they would not be available until Wednesday due to scheduled appointments. OSC sent spill information and reporter contact info to Mr. Plew and Mr. Clark. OSC then called the reporter and was told her insurance will not cover the spill. OSC suggested she contact IDOH to schedule screening, ventilate the garage and keep everyone out until the levels can be determined.

Conduct Follow-up Caldwell, Dwayne 06/10/2024

Comments: Ron Clark with IDOH emailed he will sample the dwelling tomorrow.
