Re: 40 CFR 262.42(a)(2) Exception Report

BP Products North America Inc. - Whiting Business Unit (IND000810861 - LQG)

To whom it may concern:

The BP Products North America Inc. - Whiting Business Unit (Whiting), located NE of 119th St and Front St (IND000810861 - LQG), is submitting this Exception Report in accordance with 40 CFR 262.42(a)(2). This Exception Report identifies 6 manifests that were not returned to the generator within 45 days of the date the waste was accepted by the initial transporter.

Through communications with the transporter group, Whiting obtained a status update on the waste's trajectory and discovered the railcars were held up at the N+BNSF rail yard in Galesburg, IL in route to the Systech Treatment, Storage, and Disposal Facility (TSDF) in Fredonia, Kansas. The Systech TSDF received and signed the manifests as the designated facility within 45 days, but the signed manifests were not returned to the generator until the following week. The table below identifies the 6 manifests, applicable waste shipments and arrival dates, the date the generator received manifest copies from the designated facility, the reason for delay, and other applicable information.
