Comments:

A follow-up was conducted on this complaint (#111772) in which the property owner was dumping demolition waste and tires.

A previous inspection had revealed that the owner had taken some of the demolition waste to the landfill already and had also pushed some of the demolition waste (bricks and concrete) into the ravine and covered it. Since there was still some regulated solid waste that was visible, the owner had collected that material (painted brick and concrete and a few tires) and hauled that load to Twin Bridges Landfill. A disposal receipt was submitted from the landfill.

No solid waste violations were observed at the time of inspection.

Confidential Information

In accordance with 329 IAC 6.1 (<http://www.in.gov/legislative/iac/T03290/A00061.PDF>) a person submitting information to the department for which confidential treatment is requested shall make a written claim of confidentiality at the time of submittal of the information. A person may request confidential treatment of information at the time the information is acquired through the actions of the department, such as inspections. Confidential information may include (but is not limited to) written or printed material, maps, charts, photographs, or samples (see definition of information at 329 IAC 6.1-2-8). The undersigned Owner/Representative has alleged information acquired during this inspection **does** **does not** (check one) contain confidential information. A check in the “does” box is not a written claim for confidential treatment of information acquired during this inspection.

Notice of Oral Report

In accordance with IC 13-14-5 an oral report of the inspection was provided to the undersigned Owner/Agent at the conclusion of the inspection. The oral report includes any specific matters discovered during the inspection that the IDEM representative believes may be a violation of a law or of a permit issued by the department.
