Re: Inspection Summary Letter  
VA Medical Center  
1700 E 38th Street  
Marion - Grant County  
UST Facility ID # **6971**

Dear Messrs. Applewhite, Copas and Freimuth and Ms. Sparks:

An inspector from the Indiana Department of Environmental Management (IDEM), Underground Storage Tank (UST) Compliance Section, conducted an inspection of the site referenced above on June 21, 2024.

The inspection was conducted pursuant to Indiana Code (IC) 13-14-2-2 to determine compliance with the provisions of IC 13-23 and 329 IAC 9. In accordance with IC 13-14-5, a summary of the inspection is provided below:

Type of Inspection: Initial

Results of Inspection: No violation(s) discovered.

Thank you for your attention to this matter. Please direct any questions regarding the inspection to:

Inspector: Matthew James  
Phone: (317) 750-2491

Sincerely,

Matthew James, Inspector  
UST Compliance Section  
Office of Land Quality

The information contained on this page is based upon a review of files related to this site and/or observations from an underground storage tank inspector. This page may contain information not specifically related to possible violations found during the review or inspection and is meant to give the owners and/or operator specific information to assist them.

#### Site Maintains:

- One (1) 15K DSL W FG DW UST installed 9/1993 (Building 175)
- One (1) 1K DSL E FG DW UST installed 7/1992 (Building 5) : Temp Closed
- One (1) 10K REG FG DW UST installed 6/1796 (Building 55) : Temp Closed
- Piping is FG DW and EU Suction (upgraded in 2019)

RD UST = ATG, INT

RD Piping = N/A

Overfill/Spill = Spill Buckets + Auto Shutoff

ATG Certification = Y (10/23/23)

Overfill Protection Test = Y (12/22/21)

Spill bucket Test = y (12/22/21)

Containment Sumps Test Not Required

Last known CP (Impressed/Galvanic) - N/A

Last known Liner inspection - N/A

#### Site History:

Site is a VA Hospital. Three (3) USTs were removed in 1992 per closure report (VFC Doc# 22795215). One (1) UST was removed in 1993 per closure NF (VFC Doc# 22815195, pg 6). Three (3) USTs were removed in 1998 per closure report (VFC Doc# 22815239). One (1) UST was removed in 2013 per closure report (VFC Doc# 82883992). Building 55 10K UST was originally installed in 1976 and then upgraded in 1992 (VFC Doc# 22815195, pg 11). Per the 2017 inspection, the inspector noted that two of the regulated tanks at the facility are used for emergency generator fuel storage. A violation letter was sent 11/15/21 and then site has not returned to compliance. In response to the records request dated 3/6/24, Kristin Sparks noted that they are making efforts to rectify and resolve the outstanding violations and that the 1K DSL and 10K REG tanks are planning on removing the two tanks in 2025. At this time, the 10K REG tank is completely empty and the 1K DSL tank is pending treatment prior to transferring to the Grant County Highway Department.

#### Documentation provided at the time of the file review:

- Updated Notification Form submitted 5/16/24
- Operator Certificates A, B
- UST RD (ATG) 2/23 - 5/24 : 1K DSL (Building 5) missing 8/23, 10/23, 2/24 invalid results 11/23 & 12/23 / 15K DSL missing 2/24 (Building 175)
- ATG/Probe 10/23/23 (DSL W & DSL E)
- Spill Bucket Test 12/22/21
- Overfill Test 12/22/21
- Monthly Walkthroughs 8/23-2/24 : Per 1/24 walkthrough, construction was going on at building 55
- Annual Walkthrough 12/4/23

The information contained on this page is based upon a review of files related to this site and/or observations from an underground storage tank inspector. This page may contain information not specifically related to possible violations found during the review or inspection and is meant to give the owners and/or operator specific information to assist them.

**CM Notes:**

- The 1K DSL tank is pending treatment prior to transferring to the Grant County Highway Department. They will be conducting monthly UST release detection for the 1K up until the fuel is removed.

**Inspector Notes:**

- Operator C certificates were obtained on site.  
- The photos in the compliance packet show the first two tanks are for generators  
- The last tank is the 10K that is not in use. The tank meets temporary closure requirements as it was locked and has no fuel or liquids.

The following are AREAS OF CONCERN found during the inspection that will need to be addressed by the owner and/or operator:

1. A small amount of fluids/debris was found in the sump compartments and should be monitored and cleaned out when needed.
