Dear Mr. McKee:

A representative of the Indiana Department of Environmental Management (IDEM), Office of Air Quality (OAQ), has reviewed the Annual Compliance Certification (ACC) for calendar year 2023 submitted by Duke Energy Cayuga Unit 4 located at State Road 63 in Cayuga, Indiana. As a result of information obtained during that review, IDEM alleges violations of permit no. 45791 have occurred.

Our records indicate that no prior violation letter has been issued regarding the following deviation reported in your ACC:

Compliance Monitoring and CEMS downtime in violation of permit condition D.1.4.

The Office of Air Quality will not take legal action at this time. However, any such violation in the future may result in legal action being pursued. Please direct any questions to Pat Austin, Compliance Inspector, at 317-234-3491 or by email at paustin@idem.IN.gov. Thank you for your attention to this matter.

The Compliance Data Section (CDS) of the Office of Air Quality will be evaluating any violations related to monitored excess emissions or continuous monitor downtime and may take additional action related to those as merited.

Sincerely,

Janusz Johnson, Branch Chief
Compliance and Enforcement
Office of Air Quality
