Re: *Ground Water Preliminary Exceedance Notification*  
Dated July 2, 2024 (attached below)  
VFC # pending  
Daviess County Landfill  
Montgomery, Daviess County  
SW Program 14-02

Brian:

I reviewed the *Ground Water Preliminary Exceedance Notification* (attached below) that you submitted via email on July 2, 2024, on the facility's behalf. The notification reports a preliminary statistically significant increase (SSI) for chloride at groundwater monitoring well MW-11 as observed in the results from the facility's May 14, 2024, semiannual groundwater sampling event. The notification states the facility's intent to completing a groundwater verification sampling for chloride at MW-11 and including the results in the submittal of the associated May 2024 semiannual groundwater monitoring report.

I find the notification, proposed MW-11 chloride verification sampling, and reporting plans acceptable and in compliance with the groundwater monitoring requirements of facility's Renewal Permit dated January 27, 2023 (VFC # 83422218) and 329 IAC 10-21.

Thank you for the notification and your attention to this matter. If you have questions or would like to discuss my review further, please contact me.

Sincerely,

**Michael Elliott, LPG**

Re: Ground Water Preliminary Exceedance Notification  
Detection & Assessment Monitoring (May 2024)  
Daviess County Landfill, FP # 14-02

Submitted herewith on behalf of Daviess County Landfill (DCLF) and in accordance with 329 IAC 10-21-7(b) is notification of a preliminary exceedance for the facility's May 14, 2024, semi-annual ground water sampling event. The preliminary exceedance occurred at monitoring well MW-11 for the following constituent:

- Chloride detected at 67.2 mg/l (Statistical Prediction Limit = 61.1 mg/l)

As a result of this preliminary exceedance, notification is provided herewith that DCLF intends to perform verification resampling in accordance with the facility's approved Statistical Evaluation Plan (StEP). Additionally, DCLF proposes to submit to IDEM, pending outcome of the resampling event, the verification sampling results with the May 2024 semi-annual report in accordance with 329 IAC 10-21 and the facility's StEP.

Thank you and please call me (317-753-1179) or Bob Ochs (812-486-3774), DCLF Manager, if you have any questions.
