Hi Jason!

I was onsite at the Jayco campus (903 S. Main) this morning and did a thorough drive around all the buildings and plants to look for the alleged dye and I did not observe anything of that sort. I contacted Jen Schreiber of Jayco and she stated that she has not heard of anything, but will send an email to all plant managers to keep an eye out too. Carrie and I discussed that we will leave this complaint open on our end for now to see if any Jayco plant managers reach out about anything they've seen.

Please let me know if there are any questions!

Thanks so much!!

Melanie Nellis
