Hayden Wastewater Utility Inc. District
75 North Private Road 720 West
North Vernon, IN 47265

Dear Board of Trustees:

Re: Hayden Wastewater Utility Inc. District Plan

Pursuant to Indiana Code (IC) 13-26, and as required in the Order forming the Hayden Wastewater Utility Inc. District (RD), dated December 19, 2012, a district plan (Plan) shall be submitted by the RD to the Indiana Department of Environmental Management (IDEM). As stated in IC 13-26-6-1, the Plan for the operation of a district must include: (1) engineering reports; (2) plans and specifications; and (3) a feasibility study in a form that the department requires.

A Plan should look at a twenty-year window to address future works and needs, as well as address existing works related to a district's purpose. This includes a detailed plan for project improvements and other matters related to the general scope of a district. The Plan should also address the RD's economically feasibility for providing wastewater collection to its customers.

To date, IDEM has not received a Plan from the RD, which was due by November 8, 2013. IDEM is willing to extend the timeframe in which a Plan may be submitted. In order to do so, however, the RD must provide to IDEM's Regional District Coordinator a petition to expand the time to submit the RD's Plan or submit its Plan by January 31, 2014.

Thank you for your attention to this matter. If you have any questions, please feel free to contact me at 800-451-6027 ext. 3-0476 or at lnewlon@idem.in.gov.

Sincerely,

Lynne Newlon
