Re: Shirley WWTP – Schedule of Compliance Q4 Progress Report  
IN0024503

On behalf of the Town of Shirley, I would like to submit the Progress Report for Q4-2021.

The following progress has been made based on the Action Steps and Milestones detailed on the previously submitted and approved compliance plan.

Action Steps 1-4 have been previously completed.

Action Step 5 – Compliance Plan Demonstration Period

Additional Action Plan – An Additional Action Plan was submitted to IDEM on 11/1/2021, additional information and revisions to the proposed schedule will be submitted to IDEM in January 2022. This plan will help to outline the future actions required by the Town to meet full IDEM compliance.

Additional Items:

The Town of Shirley applied for funding during the 1<sup>st</sup> round of SWIF funding but did not receive any funding. The Town is currently investigating funding options for a wastewater improvements project to reduce the flows experienced at the plant and improve capacity to meet specific effluent limits.

Regards,

John Burgelin
