Petition to stop the district sewer for Carriage Hills Subdivision

Petition summary and background	We the property owners in Carriage Hills subdivision Plymouth, IN petition Marshall Count, IN commissioners to remove said subdivision from the proposed Marchall County Regional Sewer District.
Reasons	1. We wish to continue with our approved, current septic systems. 2. This proposal would increase property assessments and in turn, increase property taxes. As well, as cause property owners to have to pay a hefty hook up fee as well as monthly fees. 3. We are unaware of any incidents of ground water contamination in this subdivision. All homes are on half an acre or more, plenty of room for a new septic system. 4. We do no wish to help fund the regional sewer district.
