PETITION TO THE INDIANA DEPARTMENT OF ENVIRONMENTAL MANAGEMENT TO INCREASE OR ADD TO THE PURPOSES OF THE ALLEN COUNTY REGIONAL SEWER DISTRICT

IN THE MATTER OF THE PETITION OF THE)
ALLEN COUNTY REGIONAL SEWER DISTRICT)
TO INCREASE AND ADD TO ITS PURPOSES)

The Allen County Regional Sewer District, by all of its Board of Trustees, hereby petitions the Indiana Department of Environmental Management, pursuant to Indiana Code § 13-3-2-9, to increase and add to its purposes by changing its name to the "Allen County Regional Water and Sewer District" and by including, as its purposes, the collection and disposal of sewage, and to provide a water supply for domestic, industrial, and public use to users, all inside the territory of the district.

This petition is made after motion, duly seconded, and unanimously passed by the Allen County Regional Sewer District at its duly constituted meeting held on the 21st day of October, 1992.

DEPARTMENT OF ENVIRONMENTAL MANAGEMENT

INDIANAPOLIS

OFFICE MEMORANDUM

DATE: January 11, 1993

TO: Kathy Prosser

THRU: Rosemary Spalding RGS
Stan Rorick SHR
Janet Coney JMC

FROM: Kyle Endris
OLC

SUBJECT: Allen County Regional Sewer District
modification of plan

Attached, please find an Order modifying Allen County's regional sewer district plan which allows the district to provide water service in addition to the sewer service already provided by the district.

The petition was reviewed by Gary Newcomer of the Reports and Quality Control section of the Facilities Development Branch, who found no territorial or authority conflicts regarding the modification. Further, Arnie Viere of the Public Water Supply section of the Drinking Water Branch, reviewed the petition and found that the addition of the purpose of water would improve control and service of the system area thereby providing for better administrative and financial operation of the system. Lastly, I have reviewed the petition and found compliance with Ind.Code 13-3-2-9 and found the regional sewer district to have followed the applicable statutory procedures.

Conclusion: because no detrimental impacts seem likely from allowing the modification, I recommend that we allow the modification.

If you have any questions, please do not hesitate to contact me. Kyle 2-8517.

BEFORE THE INDIANA DEPARTMENT
OF ENVIRONMENTAL MANAGEMENT

IN THE MATTER OF THE)
PETITION OF ALLEN COUNTY)
REGIONAL SEWER DISTRICT)
FOR MODIFICATION OF PLAN)

ORDER GRANTING MODIFICATION OF ALLEN COUNTY REGIONAL SEWER DISTRICT

That the Order dated December 12, 1978, under Cause No. B-422, as amended April 19, 1989, and September 23, 1992, be further amended as follows:

1. That the Allen County Regional Sewer District is hereby changed to the Allen County Regional Water and Sewer District.

2. That the purpose of the Allen County Regional Water and Sewer District (Allen County) is to provide for the collection and disposal of sewage and to control and regulate the development of water supply systems within the district for domestic, industrial and public use to users within its territory.

Dated at Indianapolis, Indiana, this 17 day of Feb., 1993.
