RE: Formation of Bringhurst Regional Sewer District

Dear Joe:

With respect to the public meeting to be held within the district, you are advised that the meeting will be held at the hour of 7:00 o'clock P.M. on the 17th day of April, 1980, at the Bringhurst Methodist Church located in the unincorporated village of Bringhurst. I have set this date up enough because I wanted you to be sure to have an opportunity to get two publications in the Carroll County Comet. Incidentally, the Comet is published on Wednesday of each week and your notice will have to be in the paper prior to Monday morning of the week in which you wish it published.

Also enclosed herewith is an accurate description of the territory to be included within the district, but not a legal description as such. I believe it is definite enough, however, for you to use it in your newspaper notice.

Also enclosed is a copy of a Proposed Bringhurst Waste District Boundary Map for your benefit.

As you know, we had provided in the original petition for the election of trustees but we did not discuss how they would be selected nor whether or not we would stagger the terms. It would seem to me as if at the meeting we should consider selection and staggering of terms.

It bothers me under the terms of IC 19-3-1.1-5 to permit the county council or the county commissioners to appoint members to the Board of Trustees. Do you think this is an absolute requirement? I have looked at several different petitions filed but it is impossible to know whether work and sewage were to be treated by a municipality with respect to bonding, etc. The committee had been thinking about using the Town of Flora and its billing set up to bill for the sewage and, of course, making a charge for the service. They would also then collect the funds. Perhaps one of the trustees should be the clerk-treasurer of the town. This way the bond she has already given could just simply be endorsed additionally in favor of the sewer district and that would take care of the matter; however, does a trusteeship in the sewer district constitute a public office so she would, in fact, be holding two offices? I would not think so, but perhaps you can give this your consideration.

Please let me hear from you as to the date suggested, and any other comments you might have.

Sincerely,

dnb/gh

Encl.
